

ILLINOIS JOURNAL OF MATHEMATICS

Volume 59, Number 1

Spring 2015

Peer Christian Kunstmann , A new interpolation approach to spaces of Triebel–Lizorkin type.....	1
Jang-Mei Wu , Geometry of Grushin spaces	21
L. Mazet and G. A. Wanderley , A half-space theorem for graphs of constant mean curvature $0 < H < \frac{1}{2}$ in $\mathbb{H}^2 \times \mathbb{R}$	43
Artan Sheshmani , Wall-crossing and invariants of higher rank Joyce–Song stable pairs.....	55
Philip M. Gipson , Invariant Basis Number for C^* -algebras	85
Tadahito Harima, Akihito Wachi and Junzo Watanabe , The quadratic complete intersections associated with the action of the symmetric group ...	99
Nobuo Hara , Looking out for Frobenius summands on a blown-up surface of $\mathbb{P}^2$	115
Joseph G. Conlon and Arash Fahim , Long range correlation inequalities for massless Euclidean fields	143
Alastair Fletcher , Fixed curves near fixed points	189
Teodor Banica and Szabolcs Mészáros , Uniqueness results for noncommutative spheres and projective spaces.....	219
Yan-Xia Ren, Renming Song and Rui Zhang , Limit theorems for some critical superprocesses	235
