CARL STÖRMER IN MEMORIAM

BY

VIGGO BRUN

On August 13, 1957, CARL STÖRMER died, nearly 83 years old. He was born in the town of Skien in southern Norway on September 3, 1874, as the only child of a pharmacist, G. L. Störmer and his wife née Mülertz.

When he was barely 18 years old he published his first mathematical work, *Summation of some trigonometric series*, in which he proves the formula
