

# NOTE

## CORRECTION TO

### “UPPER CONFIDENCE AND FIDUCIAL LIMITS TO THE RANGE OF SEVERAL MEANS”

BY B. CAUSEY

*U. S. Bureau of the Census*

The next-to-last sentence of page 475 of the above paper (*Ann. Statist.* 3 473–477) should read: The upper 95% confidence limit  $B_1$  is (to two places) 2.71; and (3.1) gives 2.08.
