---

New general decay result of the laminated beam system with infinite history ADEL M. AL-MAHDI, MOHAMMAD M. AL-GHARABLI AND SALIM A. MESSAOUDI .....	137
Well-posedness and general energy decay of solution for transmission problem with weakly nonlinear dissipative NOUREDDINE BAHRI, MAMA ABDELLI, ABDERRAHMANE BENIANI AND KHALED ZENNIR .....	155
Well-posedness of second order degenerate differential equations with infinite delay in Hölder continuous function spaces SHANGQUAN BU AND YUCHEN ZHONG .....	171
A fast multiscale Galerkin method for solving a boundary integral equation in a domain with corners XIANGLING CHEN AND YING JIANG .....	193
Two-point fractional boundary value problems RUI A. C. FERREIRA .....	229
Multiplicity results to nonlinear Hammerstein integral equations and applications ABDELJABBAR GHANMI, SAMAH HORRIGUE AND ZIHENG ZHANG .....	237
Existence criteria and solution search by the analytic technique of functional integral equation DIPANKAR SAHA AND MAUSUMI SEN .....	247
Solutions of Fredholm type integral equations via the classical Schauder fixed point theorem MERVE TEMIZER ERSOY .....	259
