Asymptotic Equivalence and Deficiency Distance

Asymptotic equivalence theory for nonparametric regression with random design LAWRENCE D. BROWN, T. TONY CAI, MARK G. LOW AND CUN-HUI ZHANG	688	
Deficiency distance between multinomial and multivariate normal experiments	ANDREW V. CARTER	708
Asymptotic equivalence of estimating a poisson intensity and a positive diffusion drift VALENTINE GENON-CATALLOT, CATHERINE LAREDO AND MICHAEL NUSSBAUM	731	
Asymptotic nonequivalence of GARCH models and diffusions	YAZHEN WANG	754

Inverse Problems

Recovering edges in ill-posed inverse problems: Optimality of curvelet frames	EMMANUEL J. CANDÈS AND DAVID L. DONOHO	784
Oracle inequalities for inverse problems L. CAVALIER, G. K. GOLUBEV, D. PICARD AND A. B. TSYBAKOV	843	

Prediction from Extrema

Effect of extrapolation on coverage accuracy of prediction intervals computed from Pareto-type data	PETER HALL, LIANG PENG AND NADER TAJVIDI	875
--	--	-----

Imputation

Empirical likelihood-based inference under imputation for missing response data	QIHUA WANG AND J. N. K. RAO	896
--	-----------------------------	-----

Correction

Blocked regular fractional factorial designs with maximum estimation capacity CHING-SHUI CHENG AND RAHUL MUKERJEE	925
