

THE ANNALS of STATISTICS

*AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS*

Articles

Minimum chi-square, not maximum likelihood!	JOSEPH BERKSON	457
Discussion of Professor Berkson's paper by Bradley Efron, J. K. Ghosh, L. Le Cam, Johann Pfanzagl and C. Radhakrishna Rao		
The n^{-2} -order mean squared errors of the maximum likelihood and the minimum logit chi-square estimator	TAKESHI AMEMIYA	488
Second order efficiency of the MLE with respect to any bounded bowl-shaped loss function	J. K. GHOSH, B. K. SINHA AND H. S. WIEAND	506
Markov fields and log-linear interaction models for contingency tables		
J. N. DARROCH, S. L. LAURITZEN AND T. P. SPEED	522	
A necessary condition for admissibility	LAWRENCE D. BROWN	540
Improving on inadmissible estimators in continuous exponential families with applications to simultaneous estimation of gamma scale parameters		
JAMES BERGER	545	
Examples of Berger's phenomenon in the estimation of independent normal means	L. D. BROWN	572
Empirical Bayes estimation of the multivariate normal covariance matrix	L. R. HAFF	586
Conditional independence for statistical operations	A. PHILIP DAWID	598
A note on differentials and the CLT and LIL for statistical functions with application to M -estimates	DENNIS D. BOOS AND R. J. SERFLING	618
Chi-square tests for fit for type II censored data		
DANIEL P. MIHALKO AND DAVID S. MOORE	625	
Algorithms in order-restricted statistical inference and the Cauchy mean value property	TIM ROBERTSON AND F. T. WRIGHT	645
Optimal designs for second order processes with general linear means	CARL SPRUILL	652
On approximating parametric Bayes models by nonparametric Bayes models	S. R. DALAL AND GAINEFORD J. HALL, JR.	664

Short Communications

A note on convergence rates for the product limit estimator	E. G. PHADIA AND J. VAN RYZIN	673
A new bound for the Euclidean norm of the difference between the least squares and the best linear unbiased estimators	J. K. BAKSALARY AND R. KALA	679
Expected sample size savings from curtailed procedures for the t -test and Hotelling's T^2	NIRA HERRMANN AND TED H. SZATROWSKI	682
Maximum likelihood estimates for a bivariate normal distribution with missing data	RAM C. DAHIYA AND RAMESH M. KORWAR	687

Notes

Addendum to "Large sample theory for a Bayesian nonparametric survival curve estimator based on censored data"	V. SUSARLA AND JOHN VAN RYZIN	693
Correction to "Predictive likelihood"	DAVID V. HINKLEY	694
