THE INSTITUTE OF MATHEMATICAL STATISTICS

Articles

Construction of improved estimators in multiparameter estimation for discrete exponential families	M. GHOSH, J. T. HWANG AND K. W. TSUI	351
Discussions	JAMES O. BERGER, H. MALCOM HUDSON, AND CARL MORRIS	368
Reply	M. GHOSH, J. T. HWANG, AND K. W. TSUI	375
Graph-theoretic measures of multivariate association and prediction	JEROME H. FRIEDMAN AND LAWRENCE C. RAFSKY	377
Distribution of eigenvalues in multivariate statistical analysis	STEEN A. ANDERSSON, HANS K. BRØNS AND SØREN TOLVER JENSEN	392
A universal prior for integers and estimation by minimum description length	JORMA RISSANEN	416
Information and asymptotic efficiency in parametric—nonparametric models	JANET M. BEGUN, W. J. HALL, WEI-MIN HUANG, AND JON A. WELLNER	432
Smoothing counting process intensities by means of kernel functions	HENRIK RAMLAU-HANSEN	453
The min-max algorithm and isotonic regression	CHU-IN CHARLES LEE	467
Fixed accuracy estimation of an autoregressive parameter	T. L. LAI AND D. SIEGMUND	478
Efficiency of the conditional score in a mixture setting	BRUCE G. LINDSAY	486
On moderate deviation theory in estimation	WILBERT C. M. KALLENBERG	498
Nonparametric estimation of the slope of a truncated regression	P. K. BHATTACHARYA, HERMAN CHERNOFF AND S. S. YANG	505
Natural exponential families with quadratic variance functions: statistical theory	CARL N. MORRIS	515
Asymptotics for M -type smoothing splines	DENNIS D. COX	530
A minimax approach to sample surveys	CHING-SHUI CHENG AND KER-CHAU LI	552
Optimal stopping in the stock market when the future is discounted	MARK FINSTER	564
Inverting an Edgeworth Expansion	PETER HALL	569
Expansions for the distribution and quantiles of a regular functional of the empirical distribution with applications to nonparametric confidence intervals	C. S. WITHERS	577
Galton's test as a linear rank test with estimated scores and its local asymptotic efficiency	KONRAD BEHNEN AND GEORG NEUHAUS	588
Sheffer polynomials for computing Takác's goodness-of-fit distributions	HEINRICH NIEDERHAUSEN	600
An Edgeworth expansion for simple linear rank statistics under the null-hypothesis	RONALD J. M. M. DOES	607
Edgeworth expansions for the power of permutation tests	R. D. JOHN AND J. ROBINSON	625
Robustness of Ferguson's Bayes estimator of a distribution function	ROBERT HANNUM AND MYLES HOLLANDER	632
A sharp necessary condition for admissibility of sequential tests—necessary and sufficient conditions for admissibility of SPRT's	L. D. BROWN, A. COHEN AND E. SAMUEL-CAHN	640
Multivariate tests with incomplete data	MORRIS EATON AND TAKEAKI KARIYA	654
Simultaneous interval estimation in the general multivariate analysis of variance model	PETER M. HOOPER	666
On the asymptotic relation between L -estimators and M -estimators and their asymptotic efficiency relative to the Cramér-Rao lower bound	CONSTANCE VAN EEDEN	674

Short Communications

Estimation via linearly combining two given statistics	J. K. BAKSALARY AND R. KALA	691
Justification for a K - S type test for the slope of a truncated regression	P. K. BHATTACHARYA	697
Successive sampling in large finite populations	LOUIS GORDON	702
A note on discounted future two-armed bandits	RICHARD KAKIGI	707

Vol. 11, No. 2—June 1983
