

Probability Theory and Related Fields

Continuation of
Zeitschrift für Wahrscheinlichkeitstheorie

Volume 85 Number 3 1990

- 283 **P. Hall**: Effects of design and error on normal convergence rates in regression problems
- 307 **A. Greven**: Symmetric exclusion on random sets and a related problem for random walks in random environment
- 365 **A.R. Dabrowski**: Extremal point processes and intermediate quantile functions
- 387 **M. Rutkowski**: On solutions of stochastic differential equations with drift
- 403 **G. Mazziotto, A. Millet**: Absolute continuity of the law of an infinite dimensional Wiener functional with respect to the Wiener probability
- 413 **L. Horvath**: Strong laws and limit theorems for local time of Markov processes

Volume 85 Number 4 1990 (Last issue of this volume)

- 425 **T. Shiga**: A recurrence criterion for Markov processes of Ornstein-Uhlenbeck type
- 449 **P. Hall**: Akaike's information criterion and Kullback-Leibler loss for histogram density estimation
- 469 **I.-S. Wee**: Lower functions for asymmetric Lévy processes
- 489 **A. Telcs**: Spectra of graphs and fractal dimensions. I
- 499 **M. Falk**: A note on generalized Pareto distributions and the k upper extremes
- 505 **R. Fukuda**: Exponential integrability of sub-Gaussian vectors
- 523 **H.-G. Müller, J.-L. Wang**: Locally adaptive hazard smoothing
- 539 **C.M. Newman, C.C. Wu**: Markov fields on branching planes

Contents of Volume 85

Volume 86 Number 1 1990

- 1 **S.N. Evans**: Association and random measures
- 21 **Byeong Uk Park**: Efficient estimation in the two-sample semiparametric location-scale models
- 41 **M. van den Berg, S. Srisatkunarakaj**: Heat flow and Brownian motion for a region in $\mathbb{R}^2$ with a polygonal boundary
- 53 **R.D. Foley, T.P. Hill, M.C. Spruill**: A generalization of Lévy's concentration-variance inequality
- 63 **M.T. Lacey**: Limit laws for local times of the Brownian sheet
- 87 **L. Giraitis, D. Surgailis**: A central limit theorem for quadratic forms in strongly dependent linear variables and its application to asymptotical normality of Whittle's estimate
- 105 **R. Höpfner, J. Jacod, L. Ladell**: Local asymptotic normality and mixed normality for Markov statistical models
