L'Histoire des Sciences et les Prétentions de la Science Allemande. By E. PICARD. Paris, Perrin et Cie., 1916. 12mo. 49 pages. Boards. Price 60 centimes.

THE Society for American Fellowships in French Universities has announced that it is prepared to award ten or more fellowships, each of one thousand dollars annually, to American graduate students who undertake to study in French Universities. The fellowships will be given for studies in any of the following fields of knowledge: anthropology, archæology, astronomy, botany (and agriculture), chemistry, criminology, education, engineering, geography, geology, history, law, mathematics, medicine, classical philology, oriental philology, romance philology, semitic philology, English philology, philosophy, physics, political science (including economics and international law), psychology, religion, sociology, and zoology (including biology).

The awards will be based on nation-wide competition. It is planned to make the first annual award in the spring of 1918, so that the Fellow may depart for France in July, 1918, if the war has ended by that time. It has been announced that a circular of information, giving details as to the persons eligible, the form of application, and the mode of making the award, will be ready for distribution to all American institu-
