

CORRECTION TO THE NOTE
ON RAPIDLY MIXING TRANSFORMATIONS AND AN
APPLICATION TO CONTINUED FRACTIONS

BY M. KAC AND HARRY KESTEN

Communicated November 6, 1958

After our note has been printed it has come to our attention that our result on continued fractions is already contained in a paper by W. Doeblin, *Remarques sur la théorie métrique des fractions continues*, *Compositio Math.* vol. 7 (1940) pp. 353–371.

We regret that this important paper escaped our notice and we can only hope that it will become more widely known than it apparently is.
