## Springer-Verlag and the environment

**W**e at Springer-Verlag firmly believe that an international science publisher has a special obligation to the environment, and our corporate policies consistently reflect this conviction.

**W**e also expect our business partners – paper mills, printers, packaging manufacturers, etc. – to commit themselves to using environmentally friendly materials and production processes.

**T**he paper in this journal is made from low- or no-chlorine pulp and is acid free, in conformance with international standards for paper permanency.
