

Instructions to Authors

“Nihonkai Mathematical Journal” (NMJ) publishes original contributions in all disciplines in mathematics. Each volume will consist of two issues, and each issue will appear semi-annually. In exceptional cases a volume consists of only one issue. All papers will be refereed. For a manuscript to be acceptable for publication, not only should it contain new and interesting results, but it should also be written in the prescribed form following the guidelines below. Two copies of the paper (or its pdf file) should be sent directly to any member of the Editorial Board. If there is no Subject Editor representing the topic of the paper, the manuscript should be sent to the Editor-in-Chief. Manuscripts will be reproduced directly by a photographic process. It is important that the following instructions should be adhered to closely.

Preparation of manuscripts: All papers must be written in English. The manuscript should be prepared in $\text{T}_{\text{E}}\text{X}$ or $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X}$, printed on one side of A4 white paper (12 point type size, text width 15cm and text height 22cm). Authors are encouraged to prepare manuscripts in $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X}2_{\epsilon}$ with document-style option “amsart” in accordance with the following.

Title page: The title should be accompanied with the name(s) of author(s), an abstract, Mathematics Subject Classification, a list of key words and phrases. The subject classifications can be searched at <http://www.ams.org/msc/> .

Last page: Complete postal address of the author(s) should follow the references. The list of references should be in alphabetical order. Titles of journals should be abbreviated in accordance with Mathematical Reviews. Abbreviations are available at <http://www.ams.org/msnhtml/serials.pdf> .

Footnotes: Should be typed at the bottom of the page where it is cited.

Package: Authors are encouraged to prepare manuscripts by using the NMJ package, which can be downloaded at the following.

NMJ home page <http://mathweb.sc.niigata-u.ac.jp/nmj/>

Copyright transfer: The copyright on all published articles will be held by the Nihonkai Mathematical Journal. The NMJ copyright transfer form can be downloaded at the NMJ home page above. A manuscript cannot be published unless it is accompanied by a copyright transfer.

Project Euclid —mathematics and statistics resources online: each issue of the Nihonkai Mathematical Journal can be browsed at the website of Project Euclid:

<http://projecteuclid.org/>

Reprint: 50 free reprints of each article will be supplied to the corresponding author.
