### CONTENTS

#### Papers Communicated:—

|                                                                                                                        | Page |
|------------------------------------------------------------------------------------------------------------------------|------|
| Y. KAJIMA: Spherical Functions on Some $p$ -adic Classical Groups . .                                                  | 95   |
| S. KATAYAMA: On Certain Real Quadratic Fields with Class Number<br>2 . . . . .                                         | 99   |
| H. WATANABE and A. YOSHIOKA: Chiral Anomaly on a Spin Mani-<br>fold . . . . .                                          | 101  |
| N. SUWA: Fermat Motives and the Artin-Tate Formula. I . . . .                                                          | 104  |
| H. YAMANE: Universal $R$ -matrices for Quantum Groups Associated<br>to Simple Lie Superalgebras . . . . .              | 108  |
| T. OZAWA and Y. TSUTSUMI: The Nonlinear Schrödinger Limit and<br>the Initial Layer of the Zakharov Equations . . . . . | 113  |
| S. NAITO: On Regular Subalgebras of a Symmetrizable Kac-Moody<br>Algebra . . . . .                                     | 117  |
| I. YAKABE: Minimal Quasi-ideals in Abstract Affine Near-rings. II . .                                                  | 122  |
| K. MATSUMOTO and M. YOSHIDA: On Some Discrete Reflection Groups<br>and Congruence Subgroups . . . . .                  | 125  |
| S. KANEYUKI: On a Remarkable Class of Homogeneous Symplectic<br>Manifolds . . . . .                                    | 128  |
| H. MORIMOTO: Weinstein Conjecture and a Theory of Infinite Dimen-<br>sional Cycles . . . . .                           | 132  |
| Proceedings at the 848th General Meeting . . . . .                                                                     | VII  |
