

# EDITORIAL MESSAGES

By Paul D. Humke

**Thanks.** Particular thanks are due to our dedicated and energetic Assistant Editors, Sarah Sprague of St. Olaf College, and Michael White of Washington and Lee University for their work with the *Exchange* during this past year. It is my pleasure to introduce you to our new Assistant Editor, Margaret Flint of St. Olaf College who will continue to work for the *Exchange* after Sarah graduates this spring. Many thanks too for many years of dedicated work go to outgoing Contributing Editors Daniel Mauldin and Udayan Darji; you will be missed.

**Welcome.** This year we welcome Marianna Csórnyei and Ireneusz Reclaw to our Board of Contributing Editors and a belated welcome to Ursula Molter, Lars Olsen and Luisa DiPiazza who joined us a year ago.

**Jan Lipinski is Celebrated.** On October 4, 2010 and on the fiftieth anniversary of the awarding of his doctorate, the University of Łódź (Poland) hosted a celebration of the life and work of Jan Lipinski. Jan has contributed deeply to the field of real functions in general and to the *Real Analysis Exchange* in particular. We are most pleased to include a description of this celebration in this issue of the *Exchange*.

**Author Class File.** Our raex.cls L<sup>A</sup>T<sub>E</sub>X classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: [www.stolaf.edu/analysis](http://www.stolaf.edu/analysis).

**Advertisements.** Please note the advertisements at the end of each issue, which may be of interest to *Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

**Michigan State University Press.** If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

**Website.** We encourage you to visit our website and invite your feedback regarding the content. The address is:
