## A Conversation with Emanuel Parzen by H. Joseph Newton

*Statistical Science* (2002) 17 357–378

In the conversation with Emanuel Parzen which appeared in the August 2002 issue of *Statistical Science*, the caption for Figure 1 on page 361 failed to iden-

tify Jack Youden as one of the people in the photo. We reprint the photo below. Thanks to Erich Lehmann for identifying Youden.

FIG. 1. *International Statistical Institute meeting, Paris 1961: on right side, Jack Youden, Ingram Olkin, Dorothy Gilford, Emanuel Parzen, Carol Parzen, Ellen Chernoff, Judy Chernoff; on left side, starting with second person, Betty Scott, Jerzy Neyman, Ann Durbin, Jim Durbin, Miriam Chernoff, Herman Chernoff, Ed Deming is also in the picture.*
