

CONTENTS

Wang Shutang: Generalized number system and its applications (I).....	203
Ibrahim Assem: On representations of the bimodule DA	217
Ken-ichi Tamano: Dimension of k -leasers	233
Akira Koyama: A note on span under refinable maps	237
Yoshihiro Tashiro: On conformal diffeomorphisms between product Riemannian manifolds	241
Tatsuhiko Yagasaki: Fiber shape theory	261
Tatsuhiko Yagasaki: Movability of maps and shape fibrations II	279
Fu Pei-Ren: Proximity on function spaces.....	289
Takayoshi Wakamatsu: Stable equivalence between universal covers of trivial extension self-injective algebras	299
Shin-ichi Nagamine: A remark on minimal foliations of Lie groups	317
Hajime Urakawa: Minimal immersions of projective spaces into spheres ..	321
Mitio Takano: Existence of the least and the greatest elements of a subset of the Lindenbaum algebra	349
Toshihiko Ikawa: On curves and submanifolds in an indefinite-Riemannian manifold	353
Yumiko Hironaka: Corrections to my paper "Zeta functions of integral group rings of metacyclic groups"	373
