### REPORT OF THE LIBRARIAN FOR THE YEAR 1911

The last complete Catalogue of the Library was issued as a separate pamphlet in January, 1910. Copies may be procured from the Secretary. The Annual Register contains each year a complete list of the Journals in the Library, but of books other than Journals only the accessions for the current year are given. It is hoped to issue the complete Catalogue every fifth year.

The total accessions in 1911 were 363 volumes. Notable among them are a nearly complete set of the *Journal de l'Ecole Polytechnique*, secured through the good offices of Professor Upton, the *Abhandlungen* and *Sitzungsberichte* of the Munich Academy from 1881 to date, the first Series (1879-1887) and the early

volumes of the second Series of the *Transactions* of the Mathematical Society of Kharkoff, and the first two published volumes of the new edition of Euler's Works. The Society will receive in the course of time the full set of Euler's Works, toward the publication of which it has contributed the sum of 5,000 francs. Several lacunae in our sets of Journals have been filled, and others will receive early attention.

The cost of binding the books has heretofore been largely borne by the Columbia University Library under the agreement made in 1901. With the present year the Society has decided to assume the total cost of binding. This will mean an additional expense of about \$75 per year.

The table below shows the growth of the Library during the past ten years.
