

"Let No One Ignorant of Geometry Enter Here."

That is a translation of the Greek inscription on the beautiful new MEMBERS EMBLEM of the American Mathematical Society.

The emblem is made from 1/10-10K gold-filled material.
The rim is filled with blue hard fired vitreous enamel.
The pin is pictured here three times actual size.

Available with stud and post or as a pin with safety catch.

Price \$2.00 post-paid, including tax.

Please state which design is wanted in ordering

opportunities for

mathematicians and statisticians

at the

GENERAL ELECTRIC RESEARCH LABORATORY

The Information Studies Section of the General Electric Research Laboratory in Schenectady has several challenging opportunities for mathematicians and statisticians who are prepared for and interested in pursuing a career of fundamental research in such fields as the logic of information processing machines, and information theory.

Prompt attention will be given to inquiries addressed to Dr. Lewis Eldred, Research Laboratory, General Electric Company, Box 1088, Schenectady, New York.

A New Colloquium Publication

VOLUME XXXVII

STRUCTURE OF RINGS

by **NATHAN JACOBSON**

In his preface, the author points out that a number of important developments have recently taken place in the theory of non-commutative rings. These include the structure theory of rings without finiteness assumptions, cohomology of algebras, and structure and representation theory of non-semi-simple rings. The main purpose of this volume is to give an account of the first of these developments.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains some of the officially invited addresses presented before the Society, and reviews of advanced mathematical books.

The subscription price is \$7.00 per annual volume of six numbers.

Invited addresses offered for publication should be sent to B. J. PETTIS, Department of Mathematics, Tulane University, New Orleans 18, La.; Research problems to G. B. PRICE, Department of Mathematics, University of Kansas, Lawrence, Kan.; Book reviews to J. C. OXTOBY, Bryn Mawr College, Bryn Mawr, Pa. All other communications to the editors should be addressed to the Managing Editor, G. B. PRICE.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics and is devoted principally to the publication of original papers of moderate length.

The subscription price is \$11.00 per annual volume of six numbers.

Papers in algebra, number theory, logic and foundations should be sent to IRVING KAPLANSKY, Fine Hall, Princeton, New Jersey (until June 1, 1957; thereafter to Eckhart Hall, University of Chicago, Chicago 37, Ill.); in geometry and topology to HANS SAMELSON, Department of Mathematics, University of Michigan, Ann Arbor, Mich.; in probability, real variables and abstract analysis to SHIZUO KAKUTANI, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.; in other branches of analysis, applied mathematics, and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Ill. All other communications to the editors should be addressed to the Managing Editor, R. P. BOAS.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer papers than the PROCEEDINGS.

Three volumes of two numbers each will be published in 1957. The subscription price is \$8.00 per volume.

Papers in geometry, differential equations and functions of complex variables should be sent to S. S. CHERN, Department of Mathematics, University of Chicago, Chicago 37, Ill.; in algebra and number theory to A. H. CLIFFORD, Newcomb College, Tulane University, New Orleans 18, La.; in analysis (except for differential equations and functions of a complex variable), applied mathematics and probability to Professor MARK KAC, White Hall, Cornell University, Ithaca, New York; in topology, logic and foundations to W. S. MASSEY, Department of Mathematics, Brown University, Providence 12, R. I. All other communications to the editors should be addressed to the Managing Editor, W. S. MASSEY.

Memoirs of the American Mathematical Society

This series is devoted to the publication of research monographs in pure and applied mathematics. The memoirs are issued serially, but not periodically. Each issue consists of either a single monograph or a group of cognate papers and is priced separately according to size and cost of publication. The editorial standards for acceptance are the same as for the TRANSACTIONS and manuscripts intended for publication should be submitted to the appropriate editor of the TRANSACTIONS. All other communications to the editors should be addressed to S. S. CHERN.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

MATHEMATICAL REVIEWS is published monthly, excepting July. The subscription price is \$35.00 per annual volume of eleven numbers.

OFFICIAL COMMUNICATIONS

MEETINGS OF THE SOCIETY

Abstracts for all meetings of the Society should be sent to the American Mathematical Society, 190 Hope St., Providence 6, R. I.

NEW HAVEN, CONNECTICUT, February 23, 1957.

Abstracts must be received not later than January 10. By invitation of the Committee to Select Hour Speakers for Eastern Sectional Meetings there will be an address by Professor J. T. Tate entitled *Class formations*.

NEW YORK, NEW YORK, April 5-6, 1957.

Abstracts must be received not later than February 20. By invitation of the Committee to Select Hour Speakers for Eastern Sectional Meetings there will be an address by Professor Friedman and one by Professor R. V. Kadison entitled *A survey of the theory of operator algebras*.

CHICAGO, ILLINOIS, April 19-20, 1957.

Abstracts must be received not later than February 20. By invitation of the Committee to Select Hour Speakers for Western Sectional Meetings there will be an address by Professor Rene Thom entitled *Topology of differentiable function spaces*.

BERKELEY, CALIFORNIA, April 20, 1957.

Abstracts must be received not later than February 20. By invitation of the Committee to Select Hour Speakers for Far Western Sectional Meetings there will be an address by Professor A. L. Whiteman.

PULLMAN, WASHINGTON, June 15, 1957.

Abstracts must be received not later than May 2.

SUMMER MEETING, UNIVERSITY PARK, PENNSYLVANIA, August 26-30, 1957.

Abstracts must be received not later than July 12. Professor N. E. Steenrod will deliver the Colloquium Lectures.

WASHINGTON, D. C., October 26, 1957.

Abstracts must be received not later than September 12.

J. W. GREEN, *Secretary of the Society*
