

## The instructions should be read carefully before preparing the manuscript

### A. General

The author(s) transfer(s) the copyright to his/their article to Springer-Verlag effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form); it also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Manuscripts should be submitted in **duplicate**:

- (i) either to the **Editor** who, in the opinion of the author, is most closely concerned with the subject matter of the paper (this should be the rule);
- (ii) or to the **Chief Editor**.

Submission of diskettes is encouraged, but these should not be sent until any changes requested during the reviewing process have been entered and authors have been notified of acceptance for publication. Authors are requested to follow the instructions printed in the journal for preparation of diskettes.

Papers submitted for publication should preferably be written in **English**.

Authors who prepare their papers with T<sub>E</sub>X are encouraged to ask for Springer-Verlag's T<sub>E</sub>X macropackages, called PJour1g (plain-T<sub>E</sub>X) and LJour1 (L<sup>A</sup>T<sub>E</sub>X), either by letter to Springer-Verlag or by e-mail to

svserv@vax.ntp.springer.de

– Springer-Verlag's e-mail server address. This message must contain one (several) of the following commands

for PJour1g: get /tex/plain/pjour1g.zip

for LJour1: get /tex/latex/ljour1.zip

After the manuscript has been accepted by the editor(s) the author must send in to the **Chief Editor** a disk containing the text in final form as well as any additional macro definitions used by the author, together with a printout for reference. It is important to ensure that the text is identical in the hard copy and in the soft copy. The production time for papers submitted in this form can be reduced considerably.

Authors who have written their papers in T<sub>E</sub>X but have not, for whatever reasons, used Springer-Verlag's macros should likewise

send in a disk and corresponding hard copy. Springer-Verlag will then decide on a case-by-case basis whether it makes sense economically to work from the T<sub>E</sub>X files.

To facilitate communication between the authors, editors and publisher, the author should furnish a **fax number** and/or **e-mail address** on the title page of the manuscript.

Each paper should be preceded by a **short abstract** in English.

Please submit one original manuscript typed on one side of the sheet only (in double spacing with wide margins) plus 2 copies photocopied on both sides to keep postage charges at a minimum. In order to reduce mailing costs, rejected manuscripts will not normally be returned (with the exception of original illustrations). Normally only printer's errors should be corrected in the proofs. A **charge** is made for **extensive changes** not due to typesetting errors, introduced at the proof stage.

Formulae should be printed or typed whenever possible. Dot matrix printer output is not accepted unless clearly legible.

**Illustrations** and diagrams should be submitted on separate sheets and not included in the text. They should be good quality and drawn in India ink using clean uniform lines. Computer-drawn figures are acceptable provided they are of comparable quality. Lines and curves must be smooth. Lettering 2 mm high is recommended. The publisher reserves the right to reduce or enlarge illustrations and diagrams. The author should indicate in the margin of the manuscript where illustrations and diagrams are to be inserted.

**Footnotes**, other than those referring to the title of the paper, should be avoided. If absolutely necessary, they should be numbered consecutively and placed at the foot of the page on which they occur (not at the end of the article).

On the first page of the manuscript a short **running title** should be provided (not to exceed 70 characters, including spaces).

The **list of references** at the end of the paper should always be in alphabetical order and include the names and initials of all authors, and years of publication (see examples below). Names of journal and book series should be ab-

breviated in accordance with the *Zentralblatt für Mathematik*. Whenever possible, please replace all references to papers accepted for publication, preprints or technical reports by the exact name of the journal, as well as the volume, first and last page numbers and year, if the article has already been published or accepted for publication.

When styling references, the following examples should be observed:

*Journal article:*

1. or [W] Woronowicz, S.L.: Operator equalities related to the Quantum E(2) group. *Commun. Math. Phys.* **144**, 417–428 (1992)

*Complete book:*

2. or [P-S] Pressley A., Segal, G.: *Loop groups*. Oxford: Clarendon Press 1986

*Single contribution in a book:*

3. or [M] Mack, G. Introduction to Conformal Invariant Quantum field theory in two or more dimensions. In: 't Hooft, G., Jaffe, A., Mack, G., Mitter, P., Stora, R. (eds.) *Nonperturbative quantum field theory*. Proceedings, Cargese 1987, pp. 353–383. New York, London: Plenum Press 1988

**Citations in the text** should be either (a) by numbers in square brackets, e.g., [1], or Bombieri and Giusti [1], referring to an alphabetically ordered and numbered list, or (b) by the author's initials in square brackets, e.g., [B–G], or (c) by author and year in parentheses, e.g., Bombieri and Giusti (1971). Any one of these styles is acceptable if used *consistently* throughout the paper. In the third system, if there are two authors, both should be named, e.g., Agar and Douglas (1955); if a work with more than two authors is cited, only the first author's name plus „et al.“ need be given; e.g., Komor et al. (1979); if there is more than one reference by the same author or team of authors in the same year, then a, b, c, etc. should be added after the year both in the text and in the list of references.

Thirty offprints are supplied free of charge. Additional offprints may be ordered by the authors at cost when proofs are returned.

## B. Marking-up the manuscript

### 1. Text

The words “**Theorem**”, “**Lemma**”, “**Corollary**”, “**Proposition**”, „**Definition**“, etc. are

normally printed in **boldface**, followed by the formulation in *italics* (or, if italic script is not available, underlined with a single straight line) and with the end clearly indicated. The concept of the definition should be in boldface. The words “*Proof*”, “*Remark*”, “*Example*”, “*Note*”, etc. are printed in *italics* with the formulation in ordinary (roman) typeface. If any text in the manuscript is underlined and should be printed with this underlining, a remark explaining this must be attached.

### 2. Formulae

Letters in *formulae* are printed in *italics* and figures in roman if not marked otherwise. It will help the printer if in doubtful cases the position of indices and exponents is marked thus:  $h_{j\lambda}$ ,  $a^\psi$ . Spacing of indices and exponents must be specially indicated ( $A_{m\ n}^{n\ m}$ ) otherwise they will be set ( $A_{mn}^{nm}$ ).

The following are frequently confused and should be made unambiguous:

$\cup, \cup, u, U; \circ, o, O, 0; \times, x, X, \chi, \kappa; \vee, v, \nu; \theta, \Theta, \phi, \varphi, \Phi, \emptyset, \emptyset; \psi, \Psi; \epsilon, \in;$

$a', a'$ , the symbol  $a$  and the indefinite article  $a$ ; also handwritten letters:

$c, C; e, l; I, J; k, K; o, O; p, P; s, S; u, U; v, V; w, W; x, X; z, Z.$

Please take care to distinguish these capital letters by double underlining.

#### Final check:

- Names and complete professional addresses of all authors provided on title page?
- Summary enclosed?
- Short running title provided?
- If the paper is not in English, English title and English summary provided?
- Texts and ends of theorems, lemmas, etc., clearly marked?
- All figures enclosed?
- References listed according to the Instructions to Authors?
- Mathematics Subject Classification (MSC) numbers provided?

TEX users:

- Request PJour1g or LJour1 macropackage from:  
svserv@vax.ntp.springer.de
- Submit disk with corresponding hard copy after acceptance of manuscript
- Make sure disk and hard copy are identical

## Different from the Standard

G. Scharf

### From Electrostatics to Optics

A Concise Electrodynamics Course

1994. VIII, 255 pp. 26 figs.

(Texts and Monographs in Physics)

Hardcover DM 58,- ISBN 3-540-57682-7

This is a concise and modern course on classical electrodynamics and optics. After a historical introduction and mathematical preliminaries, the book begins with electrostatics in vacuum. Maxwell's equations in vacuum are not postulated as axioms, but are deduced from electrostatics plus Lorentz invariance. General ideas are illustrated by many applications, in particular, radiation phenomena are treated in detail. Phenomenological electrodynamics of matter are dealt with as well. Significant themes such as wave optics, light scattering, geometrical optics, diffraction theory, and the laser are discussed. An epilogue relates the classical theory to modern quantum electrodynamics. The book addresses students of theoretical physics.

G. Scharf

### Finite Quantum Electrodynamics

1989. X, 224 pp. 4 figs.

(Texts and Monographs in Physics)

Hardcover DM 77,- ISBN 3-540-51058-3

The role of the concept of causality in quantum electrodynamics is analyzed here. This approach makes it possible for the first time to publish a textbook on QED which not only includes full proofs and detailed calculations but is also mathematically rigorous.

# Communications in Mathematical Physics

**Copyright.** Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis), that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out, that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

*While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.*

**Special regulations for photocopies in the USA:** Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0010-3616, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Ottawa K1A 0S2, Canada (Tel.: 613-993-9251, Fax: 613-952-8243, e-mail: cisti.docdel@nrc.ca)

**Authors should mark manuscripts according to the „Instructions to Authors.“ They should be aware that manuscripts which are not properly marked require additional time for publication. Manuscripts should be sent to:**

## Subscription Information (ISSN 0010-3616)

Vols 166-173 (3 issues each) will appear in 1995. **North America.** Recommended annual subscription rate: US \$3700 00, single issue price \$188.00 excluding carriage charges. Subscriptions are entered with prepayment only. Orders should be addressed to: Springer-Verlag New York Inc., Journal Fulfillment Services Dept., 333 Meadowlands Parkway, Secaucus, NJ 07094, USA, Tel. (201) 348-4033, Telex 023125994, Fax (201)348-4505. Members of the International Association of Mathematical Physics (IAMP) are entitled to receive the journal strictly for their own personal use at a special reduced rate. The orders must be placed through the IAMP. **All Other Countries.** Recommended annual subscription rate: DM 5920.00, plus carriage charges: [Germany: DM 85.20 incl VAT; all other countries: DM 133 20] SAL or airmail charges are available upon request. SAL delivery is mandatory to Japan, India, and Australia/New Zealand. Airmail delivery to all other countries is available upon request. Volume price: DM 740 00, single issue price: DM 296.00 plus carriage charges. Orders for all countries except North America can either be placed with your bookseller or sent directly to: Springer-Verlag, Postfach 311 340, D-10643 Berlin, Germany, Tel. 030/8207-1, Telex 0183319, Fax (0)30/8207448. Cancellations must be received by September 30 to take effect at the end of the same year. **Changes of Address:** Allow six weeks for all changes to become effective. All communications should include both old and new addresses (with Postal Codes) and should be accompanied by a mailing label from a recent issue. According to § 4 Sect. 3 of the German Postal Services Data Protection Regulations, if a subscriber's address changes the German Federal Post Office can inform the publisher of the new address even if the subscriber has not submitted a formal application for mail to be forwarded. Subscribers not in agreement with this procedure may send a written complaint to Springer-Verlag's Berlin office within 14 days of publication of this issue. **Back Volumes.** Prices are available on request. **Microform:** Microform editions are available from: University Microfilms International, 300 N. Zeeb Road, Ann Arbor, MI 48106, USA.
