

# ILLINOIS JOURNAL OF MATHEMATICS

Volume 54, Number 2

Summer 2010

---

<b>Franz-Viktor Kuhlmann</b> , A classification of Artin–Schreier defect extensions and characterizations of defectless fields .....	397
<b>Tim Römer</b> , Betti numbers and shifts in minimal graded free resolutions .....	449
<b>Pekka Salmi</b> , Quantum semigroup compactifications and uniform continuity on locally compact quantum groups.....	469
<b>Leon A. Luxemburg</b> , Cohomology of decomposition and the multiplicity theorem with applications to dynamical systems .....	485
<b>M. Omidali and L. G. Roberts</b> , On the regularity of certain projective monomial curves .....	501
<b>M. Jasiczak</b> , Extension and restriction of holomorphic functions on convex finite type domains.....	509
<b>Rocco Duvenhage</b> , Ergodicity and mixing of $W^*$ -dynamical systems in terms of joinings.....	543
<b>David Sherman</b> , Divisible operators in von Neumann algebras .....	567
<b>Zhongyan Li, Xingde Dai, Yuanan Diao and Wei Huang</b> , The path-connectivity of MRA wavelets in $L^2(\mathbb{R}^d)$ .....	601
<b>Shijun Zheng</b> , Spectral multipliers for Schrödinger operators .....	621
<b>L. Costa and R. M. Miró-Roig</b> , Frobenius splitting and derived category of toric varieties.....	649
<b>Rami Younes</b> , Minimal surfaces in $\widetilde{PSL_2(\mathbb{R})}$ .....	671
<b>Marianty Ionel and Thomas Ivey</b> , Austere submanifolds of dimension four: Examples and maximal types .....	713
<b>A. V. Isaev and I. G. Kossovskiy</b> , Continuation of CR-automorphisms of Levi degenerate hyperquadrics to the projective space.....	747
<b>David M. Freeman</b> , Bilipschitz homogeneous Jordan curves, Möbius maps, and dimension .....	753
<b>Marcin Bownik and Darrin Speegle</b> , Linear independence of Parseval wavelets .....	771
<b>Beniamino Cappelletti Montano</b> , Corrigendum to “The foliated structure of contact metric $(\kappa, \mu)$ -spaces” .....	787
