

VOL. 16 NO. 3

JULY, 1964

CONTENTS

Hirotaka FUJIMOTO and Kenkiti KASAHARA , On the continuability of holomorphic functions on complex manifolds	183
Yasutaka IHARA , On certain arithmetical Dirichlet series	214
Akira HATTORI , On 1 -cohomology groups of innite dimensional representations of semisimple Lie algebras	226
Hikosaburo KOMATSU , Semi-groups of operators in locally convex spaces	230
Indranand SINHA , On characteristic roots of group commutators of non-singular matrices	263
Par Yujiro OHYA , Le problème de Cauchy pour lesequations hyperboliquesa caractéristique multiple	268
Koichi SAKAGUCHI , A variational method for functions with positive real part	287
