

**CONTENTS**

Quasi-uniform absolute continuity and integral convergence	
By WILLIAM D.L. APPLING .....	577
Compact operators, weakly compact operators, and smooth points	
By RUSSELL G. BILYEU AND PAUL W. LEWIS .....	587
Ergodic theorems or mixing transformation groups	
By JULIUS BLUM AND BENNETT EISENBERG .....	593
The structure of codimension one distal flows with non-trivial isotropy	
By DENNIS F. DE RIGGI AND NELSON G. MARKLEY .....	601
Dispersion free weights, maximal refinement ideals, and	
atomicity in certain generalized sample spaces	
By MARIE ADÈLE GAUDARD .....	617
The $\sigma$ -representations of amenable groupoids	
By PETER HAHN .....	631
Exact solution of coupled pairs of dual trigonometric series	
By M.A. HUSSAIN AND S.L. PU .....	641
On solving the equation $\text{Aut}(X) = G$	
By HARIHARAN K. IYER .....	653
Growth of derivatives and the modulus of continuity of	
analytic functions	
By ELGIN H. JOHNSTON .....	671
The quadratic and quartic character of certain quadratic units. II	
By PHILIP A. LEONARD AND KENNETH S. WILLIAMS ....	683
Embedding noncompact manifolds	
By J.W. MAXWELL .....	693
Reciprocity isomorphisms for separable field extensions	
By ROBERT A. MORRIS .....	707
Green's functions for focal type boundary value problems	
By ALLAN C. PETERSON .....	721
Omega theorems for a class of Dirichlet series	
By DON REDMOND .....	733
On Goldie theorems for quotient rings	
By GEORGE SZETO .....	749
A note on modulus of approximate continuity on $R(X)$	
By JAMES LI-MING WANG .....	755
Fuzzy topologies characterized by neighborhood systems	
By RICHARD H. WARREN .....	761
Index, Volume 9 .....	765
Erratum, Volume 8 .....	768
