R. YUE CHI MING, A note on singular ideals.....	337
S. RAMANUJAN, Application of Morse theory to some homogeneous spaces	343
D. E. BLAIR AND G. D. LUDDEN, Hypersurfaces in almost contact manifolds	354
P. J. RYAN, Homogeneity and some curvature conditions for hypersurfaces ...	363
D. LEVIATAN, Some Tauberian theorems concerning (S^*, μ) transformations.....	389
S. TAKAHASHI, On trigonometric Fourier coefficients.....	406
M. KOBAYASHI, Capacities of sets and harmonic analysis on the group 2^w	419
K. KANNO, On the absolute Nörlund summability of the factored Fourier series	434
Y. ITAGAKI, Note on the re-topologization of a space by a set of operators	448
M. SHIBA, On a theorem of Haar.....	451
A. SAGAWA, Some function-theoretic null sets.....	456
N. KAMEI, Simply invariant subspace theorems for antisymmetric finite subdiagonal algebras	467
E. ABE, Chevalley groups over local rings.....	474
K. KENMOTSU, Invariant submanifolds in a Sasakian manifold	495
S. TANNO, Sasakian manifolds with constant ϕ -holomorphic sectional curvature	501
