

# EDITORIAL MESSAGES

By Paul D. Humke

This is the first issue under our new management structure, and although the change has had its exciting moments, the transition has gone very well. I'd especially like to thank Manav Das, Lee Larson, and Cliff Weil for the many extra hours they've spent preparing the fall issue for press. I'd like to welcome Lee and Manav as well as Udayan Darji (who is currently on sabbatical leave) to our staff as the new Managing Editors of the *Exchange*.

**Thanks.** Special thanks also to David Swanson and Lyle Smith for their help as Assistant Editors. David will complete his undergraduate program at St. Olaf College this spring while Lyle is continuing his graduate program at the University of Louisville.

**Advertisements.** Please note the advertisements at the end of each issue, which may be of interest to *Real Analysis Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of the *Exchange*. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

**Michigan State University Press.** If you are considering writing a mathematics textbook or memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers along with complimentary advertising in the *Real Analysis Exchange*.

**Website.** We encourage you to visit our website and invite your feedback regarding the content. The address is:
