## CONTENTS OF VOLUME 35

### ARTICLES AND NOTES

|                                                                                                                                                    |           |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| ABRAHAMSON, I. G. Orthant Probabilities for the Quadrivariate Normal Distribution.....                                                             | 1685-1703 |
| ADAMS, JOHN W. AND KOTZ, SAMUEL. Distribution of Sum of Identically Distributed Exponentially Correlated Gamma-Variables..                         | 277-283   |
| ANDERSON, T. W. On Bayes Procedures for a Problem With Choice of Observations.....                                                                 | 1128-1135 |
| ANDERSON, T. W. AND DAS GUPTA, S. Monotonicity of the Power Functions of Some Tests of Independence Between Two Sets of Variates.....              | 206-208   |
| ANDERSON, T. W. AND DAS GUPTA, S. A Monotonicity Property of the Power Functions of Some Tests of the Equality of Two Covariance Matrices.....     | 1059-1063 |
| ANDERSON, T. W., MUDHOLKAR, G. S. AND DAS GUPTA, S. Monotonicity of the Power Functions of Some Tests of the Multivariate Linear Hypothesis.....   | 200-205   |
| ANDERSON, T. W. AND WALKER, A. M. On the Asymptotic Distribution of the Autocorrelations of a Sample From a Linear Stochastic Process.....         | 1296-1303 |
| ATKINSON, F. V., CHURCH, J. D. AND HARRIS, B. Decision Procedures for Finite Decision Problems Under Complete Ignorance..                          | 1644-1655 |
| BAHADUR, R. R. On Fisher's Bound for Asymptotic Variances.....                                                                                     | 1545-1552 |
| BAIN, LEE J. AND WEEKS, DAVID L. A Note on the Truncated Exponential Distribution.....                                                             | 1366-1367 |
| BANERJEE, K. S. A Note on Idempotent Matrices.....                                                                                                 | 880-882   |
| BANERJEE, K. S. AND FEDERER, W. T. Estimates of Effects for Fractional Replicates.....                                                             | 711-715   |
| BARGMANN, R. E. AND TRAWINSKI, IRENE MONAHAN. Maximum Likelihood Estimation With Incomplete Multivariate Data....                                  | 647-657   |
| BARLOW, RICHARD E. AND MARSHALL, ALBERT W. Bounds for Distributions With Monotone Hazard Rate, I.....                                              | 1234-1257 |
| BARLOW, RICHARD E. AND MARSHALL, ALBERT W. Bounds for Distributions With Monotone Hazard Rate, II.....                                             | 1258-1274 |
| BARLOW, RICHARD E. AND PROSCHAN, FRANK. Comparison of Replacement Policies, and Renewal Theory Implications.....                                   | 577-589   |
| BARTOO, J. B., SRIVASTAVA, O. P. AND HARKNESS, W. L. Asymptotic Distribution of Distances Between Order Statistics From Bivariate Populations..... | 748-754   |
| BASU, A. P. Effect of Truncation on a Test for the Scale Parameter of the Exponential Distribution.....                                            | 209-213   |
| BELL, C. B. Some Basic Theorems of Distribution-Free Statistics..                                                                                  | 150-156   |

|                                                                                                                        |           |
|------------------------------------------------------------------------------------------------------------------------|-----------|
| BELL, C. B. A Characterization of Multisample Distribution-Free Statistics.....                                        | 735-738   |
| BERK, KENNETH. An Evaluation of a Functional on Infinitely Divisible Stochastic Processes.....                         | 336-340   |
| BERMAN, SIMEON M. Limiting Distribution of the Maximum of a Diffusion Process.....                                     | 319-329   |
| BERMAN, SIMEON M. Limit Theorems for the Maximum Term in Stationary Sequences.....                                     | 502-516   |
| BHAT, R. R. Bayes Solution of Sequential Decision Problem for Markov Dependent Observations.....                       | 1656-1662 |
| BHUCHONGKUL, S. A Class of Nonparametric Tests for Independence in Bivariate Populations.....                          | 138-149   |
| BICKEL, PETER J. On Some Alternative Estimates for Shift in the $P$ -Variate One Sample Problem.....                   | 1079-1090 |
| BIRCH, M. W. A New Proof of the Pearson-Fisher Theorem.....                                                            | 817-824   |
| BLACKWELL, DAVID. Memoryless Strategies in Finite-Stage Dynamic Programming.....                                       | 863-865   |
| BLACKWELL, DAVID AND FREEDMAN, DAVID. The Tail $\sigma$ -Field of a Markov Chain and a Theorem of Orey.....            | 1291-1295 |
| BLACKWELL, DAVID AND FREEDMAN, DAVID. A Remark on the Coin Tossing Game.....                                           | 1345-1347 |
| BLACKWELL, D., DEUEL, P. AND FREEDMAN, D. The Last Return to Equilibrium in a Coin Tossing Game.....                   | 1344      |
| BLUM, J. R. AND ROSENBLATT, JUDAH. On Random Sampling from a Stochastic Process.....                                   | 1713-1717 |
| BLUMENTHAL, R. M. AND GETTOOR, R. K. A Theorem on Stopping Times.....                                                  | 1348-1350 |
| BOSE, R. C. AND SRIVASTAVA, J. N. On a Bound Useful in the Theory of Factorial Designs and Error Correcting Codes..... | 408-414   |
| BREAKWELL, JOHN AND CHERNOFF, HERMAN. Sequential Tests for the Mean of a Normal Distribution II (Large $t$ ).....      | 162-173   |
| BREIMAN, LEO, LECAM, LUCIEN AND SCHWARTZ, LORRAINE. Consistent Estimates and Zero-One Sets.....                        | 157-161   |
| BREIMAN, LEO AND WURTELE, ZIVIA S. Convergence Properties of a Learning Algorithm.....                                 | 1819-1822 |
| BRETHERTON, M. H. AND WILLIAMSON, E. Tables of the Logarithmic Series Distribution.....                                | 284-297   |
| BROWN, L. Sufficient Statistics in the Case of Independent Random Variables.....                                       | 1456-1474 |
| BURKE, P. J. The Dependence of Delays in Tandem Queues.....                                                            | 874-875   |
| BURR, E. J. Small-Sample Distributions of the Two-Sample Cramer-von Mises' $W^2$ and Watson's $U^2$ .....              | 1091-1098 |
| CAPON, JACK. Radon-Nikodym Derivatives of Stationary Gaussian Measures.....                                            | 517-531   |

|                                                                                                                                                                 |           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| CHANDRASEKHARARAO, K. AND RAGHAVARAO, D. Cubic Designs . . . .                                                                                                  | 389-397   |
| CHAZAN, DAN. A Note on Convergence of Sub-Martingales . . . . .                                                                                                 | 1811-1814 |
| CHERNOFF, HERMAN AND BREAKWELL, JOHN. Sequential Tests for<br>the Mean of a Normal Distribution II (Large $t$ ) . . . . .                                       | 162-173   |
| CHERNOFF, H. AND ZACKS, S. Estimating the Current Mean of a Nor-<br>mal Distribution Which is Subjected to Changes in Time . . . . .                            | 999-1018  |
| CHURCH, J. D., HARRIS, B. AND ATKINSON, F. V. Decision Proce-<br>dures for Finite Decision Problems Under Complete Ignor-<br>ance . . . . .                     | 1644-1655 |
| COMER, JOHN P., JR. Some Stochastic Approximation Procedures<br>for Use in Process Control . . . . .                                                            | 1136-1146 |
| CONNELL, TERRENCE L. AND GRAYBILL, FRANKLIN A. Sample Size<br>Required for Estimating the Variance Within $d$ Units of the<br>True Value . . . . .              | 438-440   |
| CROUSE, C. F. Note on Mood's Test . . . . .                                                                                                                     | 1825-1826 |
| DALL'AGLIO, GIORGIO. Present Value of a Renewal Process . . . . .                                                                                               | 1326-1331 |
| DANZIGER, L. AND DAVIS, S. A. Tables of Distribution-Free Toler-<br>ance Limits . . . . .                                                                       | 1361-1365 |
| DARROCH, J. N. On the Traffic-Light Queue . . . . .                                                                                                             | 380-388   |
| DARROCH, J. N. On the Distribution of the Number of Successes in<br>Independent Trials . . . . .                                                                | 1317-1321 |
| DAS GUPTA, S. AND ANDERSON, T. W. A Monotonicity Property of<br>the Power Functions of Some Tests of the Equality of Two Co-<br>variance Matrices . . . . .     | 1059-1063 |
| DAS GUPTA, S., ANDERSON, T. W. AND MUDHOLKAR, G. S. Mono-<br>tonicity of the Power Functions of Some Tests of the Multi-<br>variate Linear Hypothesis . . . . . | 200-205   |
| DAS GUPTA, S. AND ANDERSON, T. W. Monotonicity of the Power<br>Functions of Some Tests of Independence Between Two Sets of<br>Variates . . . . .                | 206-208   |
| DAVIS, S. A. AND DANZIGER, L. Tables of Distribution-Free Toler-<br>ance Limits . . . . .                                                                       | 1361-1365 |
| DAYHOFF, EUGENE. On the Equivalence of Polykays of the Second<br>Degree and $\Sigma$ 's . . . . .                                                               | 1663-1672 |
| DEMPSTER, A. P. Tests for the Equality of Two Covariance Mat-<br>rices in Relation to a Best Linear Discriminator Analysis . . . . .                            | 191-199   |
| DENNY, J. L. On Continuous Sufficient Statistics . . . . .                                                                                                      | 1229-1233 |
| DERMAN, CYRUS. On Sequential Control Processes . . . . .                                                                                                        | 341-349   |
