

STUDIES IN  
*Item Analysis and Prediction*

*Edited by Herbert Solomon*

This integrated series of mathematical studies presents many new theoretical developments in both test design and the classification of individuals on the basis of responses to tests. \$8.75

ADVERTISING IN  
THE ANNALS of  
MATHEMATICAL STATISTICS

ADVERTISEMENTS for books, recruitment of professional personnel, etc., may now be placed in the *Annals of Mathematical Statistics*. Only full-page and half-page advertisements will be accepted. For details about costs, deadlines, sizes, and so on, please write to

Mr. Edgar M. Bisgyer  
Advertising Manager  
American Statistical Assn.  
1757 K Street, N.W.  
Washington 6, D. C.

*The first two volumes in the Statistical Research Monographs series sponsored by the Institute of Mathematical Statistics and by the University of Chicago*

## **The Passage Problem for a Stationary Markov Chain**

*By J. H. B. Kemperman.* Presents systematically a number of methods useful in studying the problems of first passage and absorption in a Markov chain; in particular, methods for obtaining exact formulae for the probabilities under consideration or their moments. Numerous illustrations show adequately how each method serves as a natural tool for handling a large number of practical problems. **\$5.00**

## **Statistical Inference for Markov Processes**

*By Patrick Billingsley.* A general mathematical theory for the statistical problems of determining whether Markov models fit empirical data and of estimating any parameters upon which the models may depend. The applications which illustrate the mathematical results make the book useful to workers in the applied fields as well as to mathematicians, statisticians, and graduate students in statistics. **\$4.00**

### *Memoirs:*

KENDALL, M. G. Studies in the history of probability and statistics XI. Daniel Bernoulli on maximum likelihood. DAVID, F. N. & MALLOWS, C. L. The variance of Spearman's rho in normal samples. FIELLER, E. C. & PEARSON, E. S. Tests for rank correlation coefficients. II. DURBIN, J. Some methods of constructing exact tests. HEATHCOTE, C. R. Preemptive priority queueing. HAJNAL, J. A two-sample sequential *t*-test. NABEYA, S. Absolute and incomplete moments of the multivariate normal distribution. WHITE, JOHN S. Asymptotic expansions for the mean and variance of the serial correlation coefficient. STARKES, T. H. & DAVID, H. A. Significance tests for paired-comparison experiments. WATSON, G. S. Goodness-of-fit tests on a circle. GONIN, H. T. The use of orthogonal polynomials of the positive and negative binomial frequency functions in curve fitting by Aitken's method. VERHAGEN, A. M. W. The estimation of regression and error-scale parameters, when the joint distribution of the errors is of any continuous form and known apart from a scale parameter. MALLOWS, C. L. Latent vectors of random symmetric matrices. HARTER, H. LEON. Expected values of normal order statistics. HAIGHT, FRANK A. A distribution analogous to the Borel-Tanner. NICHOLSON, W. L. Occupancy probability distribution critical points. OKAMOTO, MASASHI & ISHII, GORO. Test of independence in intraclass 2 x 2 tables.

*Miscellanea:* Contributions by M. ATIQULLAH, D. E. BARTON, D. E. BARTON AND F. N. DAVID, COLIN, R. BLYTH AND DAVID W. HUTCHINSON. W. J. EWENS, J. GANI, J. C. GOWER, M. J. R. HEALY AND J. C. GOWER, M. G. KENDALL, K. C. S. PILLAI AND ANGELES R. BUENAVENTURA, M. M. SONDHI, J. C. TANNER, A. M. WALKER.

### *Reviews.*

*Other Books received.*

*Corrigenda.*

The subscription, payable in advance, is 54/- (or \$8.00) per volume (including postage). Cheques should be made payable to *Biometrika*, crossed "a/c *Biometrika* Trust" and sent to the Secretary, *Biometrika* Office, University College, London, W.C.1. All foreign cheques must be drawn on a Bank having a London agency.

Issued by THE BIOMETRIKA OFFICE, University College London.

**ESTADISTICA**

**Journal of the Inter American Statistical Institute**

**Vol. XVIII, No. 68**

**September 1960**

**CONTENTS**

El Instituto Interamericano de Estadística.....	M. A. Teixeira de Freitas
IASI is Twenty.....	Stuart A. Rice
Determinant Factors in the Creation of IASI and Bases for its Initial Activities	Halbert L. Dunn
En el Vigésimo Aniversario del IASI.....	Francisco de Abrisqueta
The Work of the Committee on Improvement of National Statistics (COINS)	Raymond T. Bowman
COTA—1950 y los Censos Decenales de América.....	O. Alexander de Moraes
The Statistical Situation in America.....	Tulo H. Montenegro
La Situación Estadística en América.....	Tulo H. Montenegro
La Encuesta Social de Port Louis (Mauricio) (traducción).....	Leo Silberman
Tasas de Reemplazo de la Mano de Obra Disponible en los Países Centroamericanos (traducción).....	Louis J. Ducoff y Gladys Bowles
Legal Provisions. International Resolutions Relating to Statistics. Institute Affairs. Statistical News. Publications.

# TRABAJOS DE ESTADISTICA

Review published by the "Instituto de Investigaciones Estadísticas" of the "Consejo Superior de Investigaciones Científicas" Madrid-6, Spain.

VOL XI.

1.960.

Cuad. III.

## CONTENTS

- S. RÍOS.....Observaciones sobre la regresión y la estimación.  
D. E. BARTON and F. N. DAVID.....A congregating of worms and woodlice.  
NICO F. LAUBSCHER.....On the stabilization of the Poisson variance.

## NOTAS.

- S. RÍOS.....Matemáticos de ayer y de hoy.  
I. YÁÑEZ.....Sobre los estimadores suficientes.  
S. RÍOS.....El Centro Militar de preparación para la investigación Operativa en Francia.

CRONICA

BIBLIOGRAFIA

CUESTIONES Y EJERCICIO

For everything in connection with works, exchanges and subscription write to Professor Sixto Ríos, Instituto de Investigaciones Estadísticas, C.S.I.C., Serrano 123, Madrid-6, Spain.

The Review is composed of three fascicles published three times a year (about 350 pp), and its annual price is 100 pesetas for Spain and 240 pesetas for all other countries.

## JOURNAL OF THE AMERICAN STATISTICAL ASSOCIATION

Volume 56

June, 1961

Number 294

Confidence Curves: An Omnibus Technique For Estimation and Testing Statistical Hypotheses.....Allan Birnbaum

Changes in the Size Distribution of Dividend Income.....Edwin B. Cox  
Note on Curve Fitting with Minimum Deviations by Linear Programming

Walter D. Fisher

Bivariate Logistic Distributions.....E. J. Gumbel

Partial Correlations in Regression Computations.....Robert L. Gustafson

An Analysis of Consistency of Response in Household Surveys

Carol M. Jaeger and Jean L. Pennock

Multiple Regression Analysis of a Poisson Process.....Dale W. Jorgenson

Factorial Treatments in Rectangular Lattice Designs

Clyde Y. Kramer and Leroy S. Brenna

Significance Tests in Discrete Distributions.....H. O. Lancaster

Exact and Approximate Distributions for the Wilcoxon Statistic with Ties

Shirley Y. Lehman

The Use of Sample Quasi-ranges in Setting Confidence Intervals for the Population

Standard Deviation.....Fred C. Leone, C. W. Topp, and Y. H. Rutenberg

Randomized Rounded-off Multipliers in Sampling Theory

M. N. Murthy and V. K. Sethi

Unbiased Componentwise Ratio Estimation....D. S. Robson and Chitra Vithayasal

A Note on Measurement Errors and Detecting Real Differences.....Eugene Rogot

A Quarterly Econometric Model of the United States

Lowell E. Gallaway and Paul E. Smith

On the Use of Partially Ordered Observations in Measuring the Support for a Com-

plete Order.....R. F. Tate

The Statistical Work of Oskar Anderson.....Gerhard Tintner

A Problem Concerned with Weighting of Distributions.....Coleridge A. Wilkins

# SANKHYĀ

*The Indian Journal of Statistics*

*Edited by P. C. Mahalanobis*

Contents of Series A, Vol. 23—Part 1

Foreword.....	P. C. Mahalanobis
Sampling the reference set.....	Sir Ronald A. Fisher
Simple approximations to the probability integral and $P(\chi^2, 1)$ when both are small	J. B. S. Haldane
Mechanistic model of a random phenomenon.....	M. Kalecki
A study of large sample test criteria through properties of efficient estimates	C. Radhakrishna Rao
A method of fractile graphical analysis.....	P. C. Mahalanobis
On some properties of error area in the fractile graph method.....	K. Takeuchi
Some limit distributions connected with fractile graphical analysis..	J. Sethuraman
Some limit theorems in regression theory	K. R. Parthasarathy and P. K. Bhattacharya

ANNUAL SUBSCRIPTION: 30 rupees (\$10.00), 10 rupees (\$3.50) per issue.

BACK NUMBERS: 45 rupees (\$15.00) per volume; 12/8 rupees (\$4.50) per issue.

*Subscriptions and orders for back numbers should be sent to*

STATISTICAL PUBLISHING SOCIETY

# TECHNOMETRICS

*A Journal of Statistics*

*for the Physical, Chemical and Engineering Sciences*

## CONTENTS

TECHNOMETRICS, Vol. 3. No. 2, May, 1961

General Considerations in the Analysis of Spectra *G. M. Jenkins*; Mathematical Considerations in the Estimation of Spectra *Emanuel Parzen*; Discussion, Emphasizing the Connection Between Analysis of Variance and Spectrum Analysis *John W. Tukey*; Some Comments on Spectral Analysis of Time Series *N. R. Goodman*; Comments on the Discussions of Messrs. Tukey and Goodman *G. M. Jenkins and Emanuel Parzan*; Spectral Analysis Combining a Bartlett Window with an Associated Inner Window *Thomas H. Wonnacott*; Frequency Response from Stationary Noise: Two Case Histories *N. R. Goodman, S. Katz, B. H. Kramer and M. T. Kuo*; The Modified Gauss-Newton Method for the Fitting of Non-Linear Regression Functions by Least Squares *H. O. Hartley*; On the Possibility of Improving the Mean Useful Life of Items by Eliminating Those with Short Lives *G. S. Watson and W. R. Wells*; The Optimum Allocation of Spare Components in System *Donald F. Morrison*; Use of Tables of Percentage Points of Range and Studentized Range *H. Leon Harter*; Book Review *C. Daniel*; Statistical Programs for High Speed Computers *Notices*

*Technometrics* is published quarterly in February, May, August, and November. To members of the American Statistical Association and the American Society for Quality Control the rate is \$6.00. The annual non-member subscription rate is \$8.00. Checks should be made payable to *Technometrics* and addressed to *Technometrics*, Post Office Box 587, Benjamin Franklin Station, Washington 6, D. C.

## PROCEEDINGS OF SYMPOSIA IN APPLIED MATHEMATICS

These symposia were held under the auspices of the American Mathematical Society and other interested organizations. The Society itself published the first two volumes. The McGraw-Hill Book Company, Inc., published and sold Number 3 through 8. These six volumes have now been transferred to the American Mathematical Society by special arrangement with the McGraw-Hill Book Company, Inc. Orders should be placed through the Society.

Members of the Society are entitled to the usual 25 % discount  
on all the volumes.

### Volume 1

NON-LINEAR PROBLEMS IN MECHANICS OF  
CONTINUA, 1949. vii + 219 pp. \$5.25

### Volume 7

APPLIED PROBABILITY, 1957. v + 104 pp.  
\$5.00

### Volume 2

ELECTROMAGNETIC THEORY, 1950. iii +  
91 pp. \$3.60

### Volume 8

CALCULUS OF VARIATIONS AND ITS APPLI-  
CATIONS, 1958. v + 153 pp. \$7.50

### Volume 3

ELASTICITY, 1950. vi + 233 pp. \$6.00

### Volume 9

ORBIT THEORY, 1959. v + 195 pp. \$7.20

### Volume 4

FLUID DYNAMICS, 1953. vi + 186 pp. \$7.00

### Volume 10

COMBINATORIAL ANALYSIS, 1960. vii +  
311 pp. \$7.70

### Volume 5

WAVE MOTION AND VIBRATION THEORY,  
1954. vi + 169 pp. \$7.00

### Volume 11

NUCLEAR REACTOR THEORY (In Preparation)

### Volume 6

NUMERICAL ANALYSIS, 1956. vi + 303 pp.  
\$9.75

### Volume 12

THE STRUCTURE OF LANGUAGE AND ITS  
MATHEMATICAL ASPECTS (In Preparation)

Order from

**AMERICAN MATHEMATICAL SOCIETY**

190 Hope Street, Providence 6, Rhode Island

# THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

## OFFICERS

### *President:*

E. L. Lehmann, Department of Statistics, University of California, Berkeley 4, California

### *President-Elect:*

A. H. Bowker, Department of Statistics, Stanford University, Stanford, California

### *Secretary:*

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina, Chapel Hill, North Carolina

### *Treasurer:*

Gerald Lieberman, Institute of Mathematical Statistics, Sequoia Hall, Stanford University, Stanford, California

### *Editor:*

William Kruskal, Department of Statistics, Eckhart Hall, University of Chicago, Chicago 37, Illinois

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year for residents of the United States or Canada and \$5.00 per year for residents of other countries. There are special rates for students and for some other classes of members. Inquiries regarding membership in the Institute should be sent to the Secretary of the Institute.

## *Contents (continued)*

An Exponential Bound on the Strong Law of Large Numbers for Linear Stochastic Processes with Absolutely Convergent Coefficients	L. H. KOOPMANS 583
Expected Utility for Queues Servicing Messages with Exponentially Decaying Utility.....	FRANK A. HAIGHT 587
On the Coding Theorem for the Noiseless Channel	PATRICK BILLINGSLEY 594

### NOTES

The Essential Completeness of the Class of Generalized Sequential Probability Ratio Tests.....	M. H. DE GROOT 602
A Problem in Survival.....	JAMES B. MACQUEEN 605
First Passage Time for a Particular Gaussian Process... ..	D. SLEPIAN 610
A Note on the Ergodic Theorem of Information Theory... ..	K. L. CHUNG 612
Remark Concerning Two-State Semi-Markov Processes... ..	CYRUS DERMAN 615
An Example of an Ancillary Statistic and the Combination of Two Samples by Bayes' Theorem.....	D. A. SPROTT 616
Correction Notes.....	619
Abstracts of Papers.....	621
News and Notices.....	640
Publications Received.....	650

## **MEETINGS OF THE INSTITUTE**

### **TENTATIVE SCHEDULE**

**ANNUAL MEETING—Seattle, Washington**

**June 14-17, 1961**

**EASTERN REGIONAL MEETING—**

**New York, December 27-30, 1961**

**Abstracts** should be submitted in duplicate to the Editor, on abstract blanks, which can be found in the back of every *Annals*, beginning with the March 1961 issue or can be obtained from the IMS Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Those received by April 30 will appear in the September *Annals*, by July 31 in December, etc. Abstracts should be limited to 200 words or the equivalent, and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if transmitted by members. Abstracts must follow the stylistic requests on the abstract blank, or they may be returned.
