

VOL. 9 NO. 1

JANUARY, 1957

CONTENTS

|   |     |
|---|-----|
| <b>Tokusi NAKAMURA</b> , Minimal complexes of metric spaces. ....   | 1   |
| <b>Tatuo NAKAE</b> , The local and global covariant variations of differential forms under an infinitesimal conformal transformation. ....                | 20  |
| <b>Yosio MUTO</b> , On conformally curved Riemann spaces $V_n$ , $n \geq 6$ , admitting a group of motions $G_r$ of order $r > n(n+1)/2 - (3n-11)$ . .... | 38  |
| <b>Par J. L. LIONS</b> , Une remarque sur les applications du Théorème de Hille Yosida. ....  | 62  |
| <b>Gaisi TAKEUTI</b> , On Skolem's theorem. ....  | 71  |
| <b>F. W. GEHRING</b> , On the radial order of subharmonic functions. ....   | 77  |
| <b>Keio NAGAMI</b> , Some theorems in dimension theory for non-separable spaces. ....   | 80  |
| <b>Gaisi TAKEUTI</b> , On the theory of ordinal numbers ....  | 93  |
| <b>Hitosi HIRAMATU</b> , On Riemannian spaces admitting groups of conformal transformations. ....   | 114 |
| <b>Ichiro AMEMIYA and Tuyosi MORI</b> , Topological structures in ordered linear spaces.  | 131 |
| <b>Department of Mathematics Kyoto University and Masayoshi NAGATA</b> , A remark on the unique factorization theorem. ....                               | 143 |
| <b>Makoto MATSUMOTO</b> , Intrinsic character of minimal hypersurfaces in at spaces. ....   | 146 |
| <b>Atsuo FUJIMOTO</b> , On decomposable symmetric affine spaces. ....   | 158 |
