

EDITORIAL MESSAGES

By Paul D. Humke and Clifford E. Weil

Thanks. The Managing Editors wish to thank David Swanson, an undergraduate at St. Olaf College, and David Krcatovich, an undergraduate student at Michigan State University. Each made our jobs much easier. Our thanks once again to Gabriela Ene, who typed two manuscripts for this issue.

Contributors. We extend our grateful thanks to James Peters, Kandasamy Muthuvel, and Robert W. Vallin, for their generous contribution to the Real Analysis Exchange. Please see the next page to learn how you can add your name to this distinguished list of friends.

Editorial Board. Clifford Weil will be leaving the Editorial Board after serving on the board since the inception of the journal and as Managing Editor since 1982. This departure is accompanied by some changes in the structure of the Board. First, Professors Lee Larson and Udayan B. Darji will become Managing Editors. Also Professor Manav M. Das will join the Board as a Managing Editor. All three are from the University of Louisville, which will be the official host institution for the RAEX. Finally, Professor Paul D. Humke will assume the title of Editor in Chief. Other changes to the Board will be announced in the next volume.

Dear Colleagues,

My years of service to the RAEX have been personally very satisfying. They were made easier by the help given to me by the other members of the Board and by our many referees and authors. I extend my sincere thanks to all of you who help to make the RAEX a success and, at the same time, to make my job less difficult. I will remain a part of this organization by contributing to special projects, but it's time for others to take over the day-by-day running of the journal and the other aspects of the organization.

Clifford E. Weil

Advertisements. Please note the advertisements at the end of each issue, which may be of interest to Real Analysis Exchange readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have an item of interest that you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

Michigan State University Press. If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.
