*Survey Papers*

- |   |       |     |
|---|-------|-----|
| The Radon-Nikodym theorem for banack space valued measures  | 1     |     |
| By J. DIESTEL AND J.J. UHL, JR.   | ..... | 1   |
| Properties of mappings and continua theory  |       |     |
| By A. LELEK   | ..... | 47  |
| <i>Research Papers</i>  |       |     |
| Quasi-pure projective and injective torsion free abelian groups of rank 2                             |       |     |
| By D. ARNOLD, C.I. VINSONHALER AND W.J. WICKLESS  | ..    | 61  |
| On the oscillation of a class of fourth order differential equations                                  |       |     |
| By G.J. ETGEN AND W.E. TAYLOR, JR.  | ..... | 71  |
| Convergence lattices  |       |     |
| By ARMANDO R. GINGRAS   | ..... | 85  |
| Commuting monotone mappings of dendroids  |       |     |
| By WILLIAM J. GRAY AND JAMES NELSON, JR.  | ..... | 105 |
| A multiple-zero lemma for linear boundary value problems  |       |     |
| By G.B. GUSTAFSON   | ..... | 109 |
| Function spaces for the homotopy category of <i>CW</i> complexes                                      |       |     |
| By HAROLD M. HASTINGS   | ..... | 117 |
| On generation subgroups of the affine group on the plane by pairs<br>of infinitesimal transformations |       |     |
| By RICHARD M. KOCH AND FRANKLIN LOWENTHAL   | ....  | 119 |
| A technique in perturbation theory  |       |     |
| By G.S. LADDE, V. LAKSHMIKANTHAN AND S. LEELA   | ....  | 133 |
| The diophantine equation $Y^4 = X^3 + X^2 + 1$  |       |     |
| By W.J. LEAHEY AND D.F. HSU   | ..... | 141 |
| A note on the Frink metrization theorem   |       |     |
| By HAROLD W. MARTIN   | ..... | 155 |
| Extensions of uniform and proximity structures  |       |     |
| By DON A. MATTSON   | ..... | 159 |
| On the weak convergence of similar probability laws   |       |     |
| By RANACHANDRAMURTY PONNAPALLI  | ..... | 167 |
| A docquier-Grauert lemma for strongly pseudoconvex domains<br>in complex manifolds                    |       |     |
| By HUGO ROSSI   | ..... | 171 |
| Some consequences of the Beurling-Helson theorem  |       |     |
| By G.H. WILLIAM M. SELF   | ..... | 177 |
| On the approximation of invariant measures for continued fractions                                    |       |     |
| By M.S. WATERMAN  | ..... | 181 |
