	Page
Vranceanu, G.: Sur les espaces à connexion projective dont le group d'holonomie fixe une quadrique.....	103
Miyadera, I.: Generation of a strongly continuous semi-group operations	109
Takahashi, S.: A duality theorem for representable locally compact groups with compact commutator subgroup	115
Masuda, K.: Direct decompositions of Galois algebras	122
Tsuji, M.: On F. Riesz' fundamental theorem on subharmonic functions.....	131
Terada, F.: On the principal genus theorem concerning the Abelian extensions	141
Sunouchi, G. and Tsuchikura, T.: Absolute regularity for convergent integrals	153
Guggenheimer, H.: Ueber Kählersche und symplektische Differentialalgebren	157
Ito, N.: On Π -structures of finite groups	172
Aoki, K.: On maps of a $(2n - 1)$ -dimensional sphere into an n -dimensional sphere.....	178
Sunouchi, G.: Convergence criteria for Fourier series	187
Misonou, Y.: On a weakly central operator algebra.....	194
Tsuji, M.: An extension of Bloch's theorem and its applications to normal family.....	203
