Feng LIU: On singular integrals associated to surfaces 1
Carl TIPLER: A note on blow-ups of toric surfaces and CSC Kähler metrics 15
Giovanni CALVARUSO and Amirhesam ZAEIM: Conformally flat homogeneous pseudo-Riemannian four-manifolds 31
Akihiko MIYACHI and Naohito TOMITA: Boundedness criterion for bilinear Fourier multiplier operators 55
Markus PERLING: A lifting functor for toric sheaves 77
Atsushi HAYASHIMOTO: A parametrized de Rham decomposition theorem for CR manifolds 93
Chul Ki KO and Hyun Jae YOO: Schrödinger uncertainty relation and convexity for the monotone pair skew information 107
Teppei KOBAYASHI: Time periodic solutions of the Navier-Stokes equations with the time periodic Poiseuille flow in two and three dimensional perturbed channels 119
Dumitru MOTREANU, Viorica V. MOTREANU and Nikolaos S. PAPAGEORGIOU: Existence and nonexistence of positive solutions for parametric Neumann problems with p-Laplacian 137
