

# THE ANNALS of STATISTICS

*AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS*

## Articles

|  |      |
|--|------|
| Fast learning rates in statistical inference through aggregation . . . JEAN-YVES AUDIBERT  | 1591 |
| General maximum likelihood empirical Bayes estimation of normal means<br>WENHUA JIANG AND CUN-HUI ZHANG  | 1647 |
| Nonparametric empirical Bayes and compound decision approaches to estimation of<br>a high-dimensional vector of normal means<br>LAWRENCE D. BROWN AND EITAN GREENSTEIN | 1685 |
| Simultaneous analysis of Lasso and Dantzig selector<br>PETER J. BICKEL, YA'ACOV RITOV AND ALEXANDRE B. TSYBAKOV  | 1705 |
| On the adaptive elastic-net with a diverging number of parameters<br>HUI ZOU AND HAO HELEN ZHANG   | 1733 |
| Change-point estimation under adaptive sampling<br>YAN LAN, MOULINATH BANERJEE AND GEORGE MICHAILIDIS  | 1752 |
| Testing for common arrivals of jumps for discretely observed multidimensional processes<br>JEAN JACOD AND VIKTOR TODOROV   | 1792 |
| Covariate-adjusted nonlinear regression<br>XIA CUI, WENSHENG GUO, LU LIN AND LIXING ZHU  | 1839 |
| Kernel dimension reduction in regression<br>KENJI FUKUMIZU, FRANCIS R. BACH AND MICHAEL I. JORDAN  | 1871 |
| Asymptotics for posterior hazards<br>PIERPAAOL DE BLASI, GIOVANNI PECCATI AND IGOR PRÜNSTER  | 1906 |
| Maximum likelihood estimation for $\alpha$ -stable autoregressive processes<br>BETH ANDREWS, MATTHEW CALDER AND RICHARD A. DAVIS                                       | 1946 |
| A Fourier transform method for nonparametric estimation of multivariate volatility<br>PAUL MALLIAVIN AND MARIA ELVIRA MANCINO  | 1983 |
| On the computational complexity of MCMC-based estimators in large samples<br>ALEXANDRE BELLONI AND VICTOR CHERNOZHUKOV   | 2011 |
| Optimal discrimination designs . . . HOLGER DETTE AND STEFANIE TITOFF  | 2056 |
