

# THE ANNALS of PROBABILITY

AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS

## Articles

- Rough large deviation estimates for simulated annealing.  
Application to exponential schedules . . . . . OLIVIER CATONI 1109
- Large deviations for exchangeable random vectors . . . I. H. DINWOODIE AND S. L. ZABELL 1147
- Binomial mixtures and finite exchangeability . . . . . G. R. WOOD 1167
- Random stationary processes . . . . . KENNETH S. ALEXANDER AND STEVEN A. KALIKOW 1174
- String matching: The ergodic case . . . . . PAUL C. SHIELDS 1199
- A note on the convergence of sums of independent random variables . ADOLF HILDEBRAND 1204
- One-sided refinements of the strong law of large numbers  
and the Glivenko–Cantelli theorem . . . . . DAVID GILAT AND T. P. HILL 1213
- A difference prophet inequality for bounded i.i.d. variables, with cost  
for observations . . . . . ESTER SAMUEL-CAHN 1222
- On generalized renewal measures and certain first passage times . . . GEROLD ALSMEYER 1229
- Functional laws of the iterated logarithm for the increments  
of empirical and quantile processes . . . . . PAUL DEHEUVELS AND DAVID M. MASON 1248
- Some large-deviation theorems for branching diffusions . . . . . TZONG-YOW LEE 1288
- Limit theorems for the frontier of a one-dimensional branching diffusion  
S. LALLEY AND T. SELLKE 1310
- Renormalization and limit theorems for self-intersections of superprocesses . . JAY ROSEN 1341
- Asymptotic series and exit time probabilities . . . . . W. H. FLEMING AND M. R. JAMES 1369
- Conditional exits for small noise diffusions with characteristic boundary . MARTIN V. DAY 1385
- Quasi-invariance of product measures under Lie group perturbations:  
Fisher information and  $L^2$ -differentiability  
MAURO S. DE F. MARQUES AND LUIZ SAN MARTIN 1420
- When does the Ramer formula look like the Girsanov formula?  
M. ZAKAI AND O. ZEITOUNI 1436
- Sur la régularité des fonctions aléatoires d'Ornstein–Uhlenbeck à valeurs  
dans  $l_p$ ,  $p \in [1, \infty[$  . . . . . X. FERNIQUE 1441
- Semi-min-stable processes . . . . . MATHEW D. PENROSE 1450
- An extension of Pitman's theorem for spectrally positive Lévy processes . . JEAN BERTOIN 1464
- On the distribution of the Hilbert transform of the local time  
of a symmetric Lévy process . . . . . P. J. FITZSIMMONS AND R. K. GETOOR 1484
- A note on planar Brownian motion . . . . . STELLA BRASDESCO 1498
- The Stein–Chen method, point processes and compensators  
A. D. BARBOUR AND TIMOTHY C. BROWN 1504
- Clustering in the one-dimensional three-color cyclic cellular automaton . . ROBERT FISCH 1528
- Automorphism invariant measures on trees . . . . . ROBIN PEMANTLE 1549
- The cycle structure of random permutations . . . . . RICHARD ARRATIA AND SIMON TAVARÉ 1567
- Isoperimetric inequalities and transient random walks on graphs . . CARSTEN THOMASSEN 1592

## Correction

- Path properties of index- $\beta$  stable fields . . . . . JOHN B. NOLAN 1601

---

Vol. 20, No. 3—July 1992

# INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

*The purpose of the Institute is to foster the development and dissemination of the theory and applications of statistics and probability.*

---

## OFFICERS AND EDITORS

- President:** Willem R. van Zwet, Department of Mathematics, University of Leiden, P.O. Box 9512, 2300 RA Leiden, The Netherlands
- President-Elect:** Lawrence D. Brown, Department of Mathematics, White Hall, Cornell University, Ithaca, New York 14853-7901
- Past President:** David O. Siegmund, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305
- Executive Secretary:** Diane M. Lambert, AT&T Bell Laboratories, 600 Mountain Avenue, Room 2C-256, Murray Hill, New Jersey 07974
- Treasurer:** Jessica Utts, Division of Statistics, University of California, Davis. *Please send correspondence to: IMS Business Office, 3401 Investment Boulevard #7, Hayward, California 94545*
- Program Secretary:** Iain M. Johnstone, Division of Biostatistics, HRP Building, Room 10, Stanford University, Stanford, California 94305-5092
- Editor, *The Annals of Statistics*:** Michael Woodroffe, Department of Statistics, Mason Hall, University of Michigan, Ann Arbor, Michigan 48109-1027
- Editor, *The Annals of Probability*:** Burgess Davis, Departments of Mathematics and Statistics, Purdue University, West Lafayette, Indiana 47907
- Editor, *The Annals of Applied Probability*:** J. Michael Steele, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302
- Executive Editor, *Statistical Science*:** Robert E. Kass, Department of Statistics, Carnegie Mellon University, Pittsburgh, Pennsylvania 15213
- Editor, *The IMS Bulletin*:** George P. H. Styan, Department of Mathematics and Statistics, Burnside Hall, McGill University, 805 Sherbrooke Street West, Montreal PQ, Canada H3A 2K6
- Editor, *The IMS Lecture Notes—Monograph Series*:** Robert J. Serfling, Department of Mathematical Sciences, Johns Hopkins University, Baltimore, Maryland 21218
- Managing Editor:** Roger L. Berger, Department of Statistics, Box 8203, North Carolina State University, Raleigh, North Carolina 27695
- Managing Editor:** Robert Smythe, Department of Statistics, George Washington University, 2201 G Street N.W., Washington, D.C. 20052.

---

**Journals.** The scientific journals of the Institute are *The Annals of Applied Probability*, *The Annals of Probability*, *The Annals of Statistics* and *Statistical Science*. The news organ of the Institute is *The Institute of Mathematical Statistics Bulletin*.

**Individual and Organizational Memberships.** All individual members pay basic membership dues of \$40 plus \$10 for *The IMS Bulletin*. Each regular member must elect to receive at least one scientific journal for an additional amount, as follows: *The Annals of Applied Probability* (\$10), *The Annals of Probability* (\$20), *The Annals of Statistics* (\$20) or *Statistical Science* (\$10). Of the total dues paid, \$24 is allocated to *The IMS Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received. Reduced membership dues are available to full-time students, permanent residents of countries designated by the IMS Council and retired members. Retired members may elect to receive the *Bulletin* only for \$20. Organizational memberships are available to nonprofit organizations at \$425 per year and to for-profit organizations at \$700 per year. Organizational memberships include two multiple-readership copies of all IMS journals in addition to other benefits specified for each category (details available from the IMS Business Office).

**Individual and General Subscriptions.** Subscriptions are available on a calendar-year basis. Individual subscriptions are for the personal use of the subscriber and must be in the name of, paid directly by, and mailed to an individual. Individual subscriptions for 1992 are available to *The Annals of Applied Probability* (\$70), *The Annals of Probability* (\$80), *The Annals of Statistics* (\$80), *The IMS Bulletin* (\$45) and *Statistical Science* (\$70). General subscriptions are for libraries, institutions and any multiple-readership use. General subscriptions for 1992 are available to *The Annals of Applied Probability* (\$70), *The Annals of Probability* and *The Annals of Applied Probability* (\$180), *The Annals of Statistics* (\$130), *The IMS Bulletin* (\$50) and *Statistical Science* (\$75). Air mail rates for delivery outside North America are \$80 per title (excluding *The IMS Bulletin*).

**Permissions policy.** Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Institute of Mathematical Statistics, provided that the base fee of \$5.00 per copy, plus \$.00 per page is paid directly to the Copyright Clearance Center, 27 Congress Street, Salem, Massachusetts 01970. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is: 0091-1798/92 \$5.00 + .00.

**Correspondence.** Mail to IMS should be sent to the IMS Business Office (membership, subscriptions, claims, copyright permissions, advertising, back issues), the Editor of the appropriate journal (submissions, editorial content) or the Production Editor, Patrick Kelly, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302.

***The Annals of Probability* (ISSN 0091-1798)**, Volume 20, Number 3, July, 1992. Published quarterly by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545. Second-class postage paid at Hayward, California and at additional mailing offices. **POSTMASTER:** Send address changes to *The Annals of Probability*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545.

## EDITORIAL POLICY

The main purpose of *The Annals of Probability* and *The Annals of Statistics* is to publish contributions to the theory of probability and statistics and to their applications. The emphasis is on importance and interest; formal novelty and mathematical correctness alone are not sufficient. Also appropriate are authoritative expository papers and surveys of areas in vigorous development. All papers are refereed.

---

## NOTICE

Manuscripts submitted for publication in *The Annals of Probability* should be sent to the Editor at the following address:

Burgess Davis  
Department of Statistics  
Purdue University  
West Lafayette, Indiana 47907

# THE ANNALS OF PROBABILITY

## INSTRUCTIONS FOR AUTHORS

**Submission of Papers.** Papers to be submitted for publication should be sent to the Editor of *The Annals of Probability*. (For current address, see the latest issue of the *Annals*.) **Three copies** should be submitted on paper that will take ink corrections, although if you do not have access to a copying machine or postage is truly prohibitive, one copy will suffice. Manuscripts will not be returned. All manuscripts should be accompanied by a cover letter.

**Preparation of Manuscripts.** Manuscripts should be typewritten, entirely double-spaced, including references, with wide margins at sides, top and bottom. All copies must be completely legible. When technical reports are submitted, all extraneous sheets and covers must be removed. Typists should check an issue of the *Annals* for style.

**Submission of Reference Papers.** Two copies of unpublished or not easily available papers cited in the manuscript should be submitted with the manuscript.

**Title.** The title should be descriptive and as concise as is feasible, i.e., it should indicate the topic of the paper as clearly as possible, but every word in it should be pertinent.

**Abbreviated Title.** An abbreviated title to be used as a running head is also required. This should normally not exceed 35 characters. For example, an article with the title "A Limit Theorem for Conditioned Recurrent Random Walk Attracted to a Stable Law" could have the running head, "Limit Theorem for Recurrent Random Walk" or possibly "Recurrent Random Walk Attracted to a Stable Law" depending on the emphasis to be conveyed.

**Affiliation.** Indicate your present institutional affiliation as you would like it to appear. List your permanent mailing address after the references.

**Summary.** Each manuscript is required to contain a summary, clearly separated from the rest of the paper, which will be printed immediately after the title. Its main purpose is to inform the reader quickly of the nature and results of the paper; it may also be used as an aid in retrieving information. The length of a summary will clearly depend on the length and difficulty of the paper, but in general it should not exceed 150 words. Formulas should be used as sparingly as possible within the summary. The summary should not make reference to results or formulas in the body of the paper—it should be self-contained.

**Footnotes.** Footnotes should not be used, except as described under Title Page Footnotes below. Such information should be included within the text.

**Title Page Footnotes.** Included as a footnote on page 1 should be the headings:

American Mathematical Society 1980 subject classifications. Primary—; secondary—.

Key words and phrases.

The classification numbers representing the primary and secondary subjects of the article may be found with instructions for its use in the *Mathematical Reviews Annual Subject Index-1980*. The key words and phrases should describe the subject matter of the article; generally they should be taken from the body of the paper.

Acknowledgment of support. Grants and contracts should also be included in this footnote.

**Identification of Symbols.** Manuscripts for publication should be clearly prepared to insure that all symbols are properly identified. Distinguish between "oh" and "zero," "ell" and "one," "epsilon" and "element of," "summation" and "capital sigma," etc. Indicate also when special type is required (Greek, German, script, boldface, etc.); unless indicated otherwise, formula letters will be set in italics. Acronyms should be introduced sparingly. Any handwritten symbols should be clearly identified.

**Figures and Tables.** Figures, charts, and diagrams should be prepared in a form suitable for photographic reproduction and should be professionally drawn twice the size they are to be printed. (These need not be submitted until the paper has been accepted for publication.) The printer does not improve upon the quality of the figures submitted. Tables should be typed on separate pages with accompanying footnotes immediately below the table.

**Formulas.** Fractions *in the text* are preferably written with the solidus or negative exponent; thus,  $(a + b)/(c + d)$  is preferred to  $\frac{a + b}{c + d}$ , and  $(2\pi)^{-1}$  or  $1/(2\pi)$  to  $\frac{1}{2\pi}$ . Also,  $a^{b(c)}$  and  $a_{b(c)}$  are preferred to  $a^{b_c}$  and  $a_{b_c}$ , respectively. Complicated exponentials should be represented with the symbol  $\exp$ . A fractional exponent is preferable to a radical sign.

**References.** References should be typed double-spaced and should follow the style:

Révész, P. (1982). On the increments of Wiener and related processes. *Ann. Probab.* **10** 613–622.

In textual material, the format "... Révész (1982)..." should be used. Multiple references can be distinguished as "... Révész (1982a)..." Abbreviations for journals should be taken from a current index issue of *Mathematical Reviews*.

**Addresses.** The permanent address of each author should be typed following the references.

**Copyright, Page Charges and Offprints.** Page charges are \$45 per printed page. Payment of some or all of the estimated page charges associated with articles is strongly encouraged. The editorial review of articles and administration of page charges are completely separate activities. Manuscripts are reviewed and accepted prior to determining whether page charges will be paid.

Corresponding authors receive 25 gratis offprints. Offprints of discussion articles include the main article(s), discussion(s) and rejoinder(s) as a package. Corresponding authors of main articles receive 25 gratis offprints; corresponding discussants receive 10 gratis offprints. Additional offprints may be purchased by using the IMS Offprint Purchase Order Form accompanying the galley.

Copyright transfer, page charges and offprints are the responsibility of the IMS Business Manager.

**Galley Proofs.** The corresponding author will ordinarily receive galley proofs. Corrected galley proofs should be sent to AOP Redactory, Science Typographers, Inc., 15 Industrial Boulevard, Medford, NY 11763.
