

BRIEF MENTION

Lectures on ergodic theory. By Paul R. Halmos. New York, Chelsea, 1960. 7+101 pp. \$2.95.

This is a reproduction, bound in hard-cover, of the lecture notes first published in 1956 by the Mathematical Society of Japan. Cf. this Bulletin, vol. 65, pp. 253–254.

The theory of groups. 2d. English ed. 2 vols. By A. G. Kurosh. Trans. from the Russian and edited by K. A. Hirsch. New York, Chelsea, 1960. 272 pp. and 308 pp. \$4.95 each volume.

This is the same as the edition of 1956.

Grundlagen der Analysis. By E. Landau. 3d ed. New York, Chelsea, 1960. 173 pp. \$1.95 (paper-bound).

In this edition the prefaces have been translated by F. Steinhardt and a German-English Vocabulary has been appended.
