An invitation to present Colloquium Lectures in 1968 was accepted by D. C. Spencer. The invitation marks the return to a former Society policy of presenting two sets of Colloquium Lectures at a Summer Meeting. John Milnor had previously accepted an invitation to present Colloquium Lectures in the Summer of 1968.

The Council approved the report of the Nominating Committee, resulting in the following slate for the October 1967 election:

President Elect: O. Zariski.

Trustee: Irving Kaplansky.

Upon recommendation of the Nominating Committee, the Council elected Reese T. Prosser and F. Spitzer to represent the Society on the Editorial Board of the Duke Journal for the period 1968 through 1970.

Following a recommendation of the Committee to Monitor Problems in Communication, the Council approved the establishment of a service for the selective distribution of offprints of journal articles. In announcing this action to the membership, the Secretary wishes to emphasize that this is a distribution service and not a publication service. It does not replace journals but does enable a subscriber to the service quickly to obtain offprints of papers in areas of his previously expressed interest.

Editorial positions for several prospective publications were filled as follows:

Richard Bellman and Garrett Birkhoff as editors of the volume on Transport Theory in the series Proceedings of Symposia in Applied Mathematics (PSAM). The Symposium took place in April 1967.

G. B. Dantzig and Arthur F. Veinott, Jr. as editors of the volume on Mathematics in the Decision Sciences in PSAM. The Seminar took place in the Summer of 1967.

Alex Heller as editor of the volume on Applications of Categorical Algebra. The Symposium has been established for April 1968.

Garrett Birkhoff as editor of the volume on Numerical Solutions of Field Problems in Continuum Physics in PSAM. The Symposium has been established for April 1968 in connection with the Army Research Office (Durham) twentieth anniversary.

The Committee on Mathematics in the Life Sciences has, by mutual agreement, been made a joint committee of the Society with the Society for Industrial and Applied Mathematics.

The Council passed the following resolution about the documentation of work performed on federal government grants and contracts:

The Council of the American Mathematical Society urges responsible university officers to take immediate action to have Time and Effort Reports and similar documents pertaining to faculty members' time eliminated, because it considers that such documents are incompatible with academic life and work.

The Council reiterates the traditional view that teaching and

research are inseparable, and that accounting procedures in universities must take account of their unitary character.

The Council instructed the Secretary to distribute this resolution widely. The Council also instructed the President to appoint a committee to work toward mutually acceptable modifications with appropriate government administrators.

Professor W. J. LeVeque, as a member of the Society and representing a group of members, presented a proposal concerning a mathematical research and conference center. The feasibility and desirability of a conference center were discussed. The following resolution was adopted:

A mathematical research and conference center, equally available to all mathematical disciplines, would be of considerable value to the mathematical community on this continent.

The Council adjourned at 11:51 P.M.

There was a Business Meeting in Convocation Hall at 10:15 A.M. on Thursday, August 31.

The Secretary reported various actions by the Council. He noted that the new building for Society headquarters is to be occupied in October and to be dedicated at the same time, December 5-7, 1967, as the Conference on Communication Problems in the Mathematical Sciences. He noted that the Council has endorsed the 1940 Statement of Principles by the American Association of University Professors on Academic Freedom and Tenure.

The following amendment to the By-laws, already approved by the Council at its meeting in April of 1967 and announced in the call for the business meeting, was presented to the membership for action:

Alter the second sentence in Section 1, Article VII by the addition of the italicized words: "The term of office in the case of members of Publication Committees shall be *four years for the Proceedings and Transactions (except for the years 1967 through 1970) and three years for the remaining committees*, except that when the size of a publications committee is changed, the Council may authorize the election of a member for a shorter term."

Add a section 1a as follows:

Section 1a. For the years 1967 through 1970, the terms of members of the Editorial Committee of the Transactions and Proceedings shall be as follows:

Transactions:

Term Expires December 31

<i>R. S. Palais</i>	<i>1969</i>
<i>Frank Peterson</i>	<i>1969</i>
<i>David Buchsbaum</i>	<i>1970</i>
<i>H. P. McKean, Jr.</i>	<i>1970</i>

*Proceedings:**Term Expires December 31*

<i>R. C. Buck</i>	<i>1967</i>
<i>A. P. Mattuck</i>	<i>1969</i>
<i>Irving Reiner</i>	<i>1969</i>
<i>W. R. Wasow</i>	<i>1970</i>

On January 1, 1971, this section, as well as the parenthetical phrase (except for the years 1967 through 1970) of section 1 will be repealed.

The amendment was approved.

The business meeting adjourned at 10:40 A.M.
