

JOURNALS PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY

TRANSLATION JOURNALS

Soviet Mathematics–Doklady is a bimonthly translation journal containing the entire pure mathematics section of the DOKLADY AKADEMII NAUK SSSR.

Mathematics of the USSR–Izvestija, a bimonthly journal is a cover-to-cover translation of IZVESTIJA AKADEMII NAUK SSSR SERIJA MATEMATIČESKAJA.

Mathematics of the USSR–Sbornik is a monthly journal and is a cover-to-cover translation of MATEMATIČSKII SBORNIK (NOVAJA SERIJA).

Theory of Probability and Mathematical Statistics is the cover-to-cover translation into English of the TEORIJA VEROJATNOSTEI I MATEMATIČESKAJA STATISTIKA.

Vestnik of the Leningrad University (Mathematics) is the complete translation into English of the mathematics section of the VESTNIK LENINGRADSKOGO UNIVERSITETA.

Transactions of the Moscow Mathematical Society is a translation into English of TRUDY MOSKOVSKOGO MATEMATIČESKOGO OBŠČESTVA.

Proceedings of the Steklov Institute of Mathematics is a translation of the PROCEEDINGS OF THE STEKLOV INSTITUTE OF MATHEMATICS IN THE ACADEMY OF SCIENCES OF THE USSR.

RESEARCH JOURNALS

Submission information for these journals is included in the May and September issues of this *Bulletin*.

Bulletin (New Series) of the American Mathematical Society is a bimonthly journal which contains Research-Expository Papers, Research Announcements and Reviews of Books on Advanced Mathematics.

Mathematics of Computation is a quarterly journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices, and other aids to computation.

Memoirs of the American Mathematical Society is a bimonthly journal constituting a series of paperbound research tracts which are of the same general character as the papers published in the TRANSACTIONS.

Proceedings of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics, principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character for which there is normally no other outlet.

Transactions of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics and, in general, includes longer papers than those in the PROCEEDINGS.

OTHER JOURNALS

Abstracts of Papers Presented to the American Mathematical Society contains abstracts of invited hour addresses of papers presented in special sessions or in sessions for contributed papers and of papers presented to the Society “by title”.

Current Mathematical Publications, issued biweekly, contains a subject-classified index of papers and books being published currently in mathematics.

Mathematical Reviews is a monthly journal devoted to abstracts and reviews of the current mathematical literature of the world. Each volume consists of six regular issues plus an index issue. Starting in 1979 the second volume index each year is the author and subject index for the entire year. Abstracts and reviews are grouped under subject headings.

Notices of the American Mathematical Society, published eight times a year, contains programs and reports of the meetings of the Society, reports on Society business, communications to the membership, and news items and information of interest to the mathematical community.

BULLETIN (New Series) of the American Mathematical Society

EDITORIAL BOARD FOR RESEARCH-EXPOSITORY ARTICLES

Lipman Bers	Frederick W. Gehring
Felix E. Browder, Chairman	Donald S. Ornstein
Paul J. Cohen	James B. Serrin
Morton L. Curtis	Stephen Smale
	John T. Tate

EDITORIAL BOARD FOR RESEARCH ANNOUNCEMENTS

Charles L. Fefferman	David Mumford
Melvin Hochster	Julia B. Robinson
Robert P. Langlands	Gian-Carlo Rota
Richard K. Lashof	I. M. Singer
Henry P. McKean, Jr.	Chairman
Hugh L. Montgomery	François Trèves

BOOK REVIEW EDITOR:	Meyer Jerison
MANAGING EDITOR:	I. M. Singer

MANUSCRIPT, PROOF AND COPYING INFORMATION

SUBMISSION OF MANUSCRIPT

Articles submitted for publication should be typewritten and double spaced. The *Manual for Authors*, available from the Society, should be consulted for symbols and style conventions. Authors should take the greatest possible care in preparing the original manuscript. Hand drawn symbols are satisfactory, if clearly done; directions to the printer should be included where necessary on a separate sheet.

For Research-Expository Articles and Research Announcements, the first footnote should include *subject classification numbers* representing the primary and secondary subjects of the article. The 1980 Mathematics Subject Classification can be found in the December index volumes of *Mathematical Reviews*.

COPYRIGHT TRANSFER AGREEMENT

The signing of a Copyright Transfer Agreement is a requirement of publication in the BULLETIN. A copy of the agreement is sent to the authors upon receipt of a manuscript in the Providence Office of the Society; in case of joint authors, copies are sent to the author who is designated to receive galley proof. Authors are urged to return the form immediately to prevent delays in processing and publishing of the manuscript. The 1978 edition of the *Manual for Authors* has a description of Society policy concerning copyright and a copy of the agreement.

PUBLICATION CHARGES

Research Announcements carry a page charge of \$40.00 per page to help defray the cost of publication. This amount is charged to the institution or to a contract supporting the research reported in the published paper. The publication charge policy of the United States Federal Council for Science and Technology (FCST) is reported on page 112 of the February, 1975 issue of the NOTICES of the American Mathematical Society. In no case is the author personally responsible for paying the page charge, nor is acceptance of the author's paper for publication dependent upon payment of the page charge.

REPRINTS AND ADDRESS CHANGES

Any inquiries concerning a paper which has been accepted for publication, including information regarding reprints or changes of address for mailing proof, should be sent directly to the Editorial Department, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

GALLEY PROOF

When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate which of them should receive galley proof in the event that the manuscript is accepted for publication.

COPYING AND REPRINTING

Individual readers of this publication, and nonprofit libraries acting for them are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (For details write Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970.)

RESEARCH — EXPOSITORY PAPERS

Marston Morse and his mathematical works <i>by Raoul Bott</i>	907
Tilings with congruent tiles <i>by Branko Grünbaum and G. C. Shephard</i>	951
Markov processes and random fields <i>by E. B. Dynkin</i>	975
Geometric relations between homeomorphic Riemann surfaces <i>by A. Marden</i>	1001

RESEARCH ANNOUNCEMENTS

Absence of singular continuous spectrum in N -body quantum systems <i>by P. Perry, I. M. Sigal and B. Simon</i>	1019
Stable and L^2 -cohomology of arithmetic groups <i>by A. Borel</i>	1025
An example of a fixed point free homeomorphism of the plane with bounded orbits <i>by Stephanie M. Boyles</i>	1028
A Poincaré-Hopf type theorem for the de Rham invariant <i>by Daniel Chess</i>	1031
Dynamics of horospherical flows <i>by S. G. Dani</i>	1037
Blocks with cyclic defect groups in $GL(n, q)$ <i>by Paul Fong and Bhama Srinivasan</i>	1041
Affine manifolds and solvable groups <i>by D. Fried, W. Goldman and M. W. Hirsch</i>	1045
Homology of group systems with applications to low-dimensional topology <i>by S. J. Lomonaco, Jr</i>	1049
Weights, sharp maximal functions and Hardy spaces <i>by Jan-Olov Strömberg and Alberto Torchinsky</i>	1053
Affine Lie algebras and Hecke modular forms <i>by V. G. Kac and D. H. Peterson</i>	1057

BOOK REVIEWS

Quasiconformal mappings and Riemann surfaces <i>by Samuil L. Kruškal'</i> —Reviewed by <i>F. W. Gehring</i>	1062
Optimization and approximation <i>by W. Krabs</i> , translated by <i>Philip M. Anselone and Ronald B. Guenther</i> —Reviewed by <i>Charles K. Chui and Joseph D. Ward</i>	1065
Lectures on pseudo-differential operators: Regularity Theorems and applications to non-elliptic problems <i>by Alexander Nagel and E. M. Stein</i> —Reviewed by <i>Richard Beals</i>	1069
Bedienungsprozesse <i>by Gennadi P. Klimow</i> translated from the Russian by <i>V. Schmidt</i> —Reviewed by <i>Marcel F. Neuts</i>	1074
Index to Volumes 2 and 3.....	1077
