

ILLINOIS JOURNAL OF MATHEMATICS

Volume 58, Number 3

Fall 2014

Aline Mauricio Barbosa , Compact minimal vertical graphs with non-connected boundary in $\mathbb{H}^n \times \mathbb{R}$	593
Jonathan Brown and Ilan Hirshberg , The Rokhlin property for endomorphisms and strongly self-absorbing C^* -algebras.....	619
Fernanda Botelho and James Jamison , Isometries on the vector valued little Bloch space.....	629
Mark R. Johnson and Paolo Mantero , Ubiquity of complete intersection liaison classes.....	647
Jason Schmurr , Translation covers among triangular billiard surfaces.....	665
Indranil Biswas and Harish Seshadri , On the Kähler structures over Quot schemes, II.....	689
Semyon Litvinov , A non-commutative Wiener–Wintner theorem.....	697
Tony J. Puthenpurakal , On injective resolutions of local cohomology modules	709
Anton Deitmar and Ming-Hsuan Kang , Geometric zeta functions for higher rank p -adic groups.....	719
Alexandre Eremenko, Andrei Gabrielov and Vitaly Tarasov , Metrics with conic singularities and spherical polygons.....	739
Bernadette Boyle , The unimodality of pure O -sequences of type three in three variables.....	757
Changhao Chen and Eino Rossi , Locally rich compact sets.....	779
Giulia Dileo and Antonio Lotta , Riemannian almost CR manifolds with torsion.....	807
Selma Yıldırım Yolcu and Türkay Yolcu , Eigenvalue bounds for the poly-harmonic operators.....	847
