CONTENTS

A homomorphism of a pseudo plane onto a projective plane By E.H. DAVIS .....	515
Finite local rings By G. GANSKE AND B.R. McDONALD.....	521
Bifurcation in singular self-adjoint boundary value problems By F.G. HAGIN .....	541
Exchangeable events and completely monotonic sequences By CLARK H. KIMBERLING .....	565
On decompositions of $E(G)$ By CARTER LYONS .....	575
Multiple subdivisions of $E^n$ By GERALD C. MARLEY .....	583
Functions analogous to completely convex functions By S.P. PETHE AND A. SHARMA .....	591
Cohomology of quasi-projective Stiefel manifolds By A. DUANE RANDALL .....	619
Strongly rigid relations By I. ROSENBERG .....	631
Covering complexes with applications to algebra By JOSEPH ROTMAN .....	641
Index .....	675
