

THE ANNALS *of* APPLIED PROBABILITY

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Articles

- Mafia: A theoretical study of players and coalitions in a partial information environment
MARK BRAVERMAN, OMID ETESAMI AND ELCHANAN MOSSEL 825
- On a class of optimal stopping problems for diffusions with discontinuous coefficients
LUDGER RÜSCHENDORF AND MIKHAIL A. URUSOV 847
- Optimal investment and consumption in a Black–Scholes market with Lévy-driven
stochastic coefficients ŁUKASZ DELONG AND CLAUDIA KLÜPPELBERG 879
- Slow convergence in bootstrap
percolation JANKO GRAVNER AND ALEXANDER E. HOLROYD 909
- A unified framework for utility maximization problems: An Orlicz space approach
SARA BIAGINI AND MARCO FRITTELLI 929
- Proliferating parasites in dividing cells: Kimmel’s
branching model revisited VINCENT BANSAYE 967
- Asymptotic results on the length of coalescent trees JEAN-FRANÇOIS DELMAS,
JEAN-STÉPHANE DHERSIN AND ARNO SIRI-JEGOUSSE 997
- Clustering in a stochastic model of one-dimensional gas VLADISLAV V. VYSOTSKY 1026
- Palm distributions of wave characteristics in encountering seas
SOFIA ABERG, IGOR RYCHLIK AND M. ROSS LEADBETTER 1059
- Asymptotic normality of the k -core
in random graphs SVANTE JANSON AND MALWINA J. LUCZAK 1085
- L^p -variations for multifractal fractional random walks CARENNE LUDENA 1138
- A mixed singular/switching control problem for a dividend policy with reversible
technology investment
VATHANA LY VATH, HUYÊN PHAM AND STÉPHANE VILLENEUVE 1164
- Variance bounding Markov chains
GARETH O. ROBERTS AND JEFFREY S. ROSENTHAL 1201
- Card shuffling and Diophantine approximation
OMER ANGEL, YUVAL PERES AND DAVID B. WILSON 1215
- Central limit theorem for signal-to-interference
ratio of reduced rank linear receiver G. M. PAN AND W. ZHOU 1232

Correction

- Error estimates for binomial approximations
of game options YAN DOLINSKY AND YURI KIFER 1271
