

THE ANNALS of PROBABILITY

AN OFFICIAL JOURNAL OF
THE INSTITUTE OF MATHEMATICAL STATISTICS

Special Invited Paper

Some limit theorems for empirical processes	E. GINÉ AND J. ZINN	929
Discussion on Professors Giné and Zinn's paper by K. S. ALEXANDER, R. M. DUDLEY, P. GAENSSLER, W. PHILIPP, D. POLLARD, R. PYKE, AND W. STUTE		990
Oriented percolation in two dimensions	RICHARD DURRETT	999

Articles

Probability inequalities for empirical processes and a law of the iterated logarithm	K. S. ALEXANDER	1041
A limit theorem for N_{0n}/n in first-passage percolation	YU ZHANG AND YI CI ZHANG	1068
On diffusion processes and their semigroups in Hilbert spaces with an appli- cation to interacting stochastic systems	G. LEHA AND G. RITTER	1077
Conditional Markov renewal theory I. Finite and denumerable state space	S. P. LALLEY	1113
Strong approximation of extended renewal processes	LAJOS HORVÁTH	1149
Asymptotic normality, strong mixing and spectral density estimates	M. ROSENBLATT	1167
Strong limit theorems for maximal spacings from a general univariate dis- tribution	PAUL DEHEUVELS	1181
A spectral representation for max-stable processes	L. DE HAAN	1194
Ordered prime divisors of a random integer	S. P. LLOYD	1205

Short Communications

Comparison of threshold stop rules and maximum for independent non- negative random variables	ESTER SAMUEL-CAHN	1213
Elliptical symmetry and characterization of operator-stable and opera- tor semi-stable measures	A. ŁUCZAK	1217
A characterization of orthogonal transition kernels	LUTZ W. WEIS	1224

Vol. 12, No. 4—November 1984

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

OFFICERS

President:

Oscar Kempthorne, Department of Statistics, 111B Snedecor Hall, Iowa State University, Ames, Iowa 50011

President-Elect:

Paul Meier, Department of Statistics, University of Chicago, 5734 University Avenue, Chicago, Illinois 60637

Past-President:

Ingram Olkin, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305

Executive Secretary:

Francisco J. Samaniego, Division of Statistics, 469 Kerr Hall, University of California, Davis, California 95616

Treasurer:

Bruce E. Trumbo, Department of Statistics, California State University, Hayward, California 94542. *Please send correspondence to:* IMS Business Office, 3401 Investment Blvd., Suite 6, Hayward, California 94545

Program Secretary:

Richard A. Johnson, Department of Statistics, University of Wisconsin, 1210 West Dayton St., Madison, Wisconsin 53706

Editor: *The Annals of Statistics*

Michael D. Perlman, Department of Statistics GN-22, University of Washington, Seattle, Washington 98195

Editor: *The Annals of Probability*

Harry Kesten, Department of Mathematics, Cornell University, Ithaca, New York 14853

Executive Editor: *Statistical Science*

Morris H. DeGroot, Department of Statistics, Carnegie-Mellon University, Pittsburgh, Pennsylvania 15213

Editor: *The IMS Bulletin*

William C. Guenther, Department of Statistics, University of Wyoming Laramie, Wyoming 82071. *Send correspondence to:* Box 3332 University Station, Laramie, Wyoming 82071

Editor: *The IMS Lecture Notes—Monograph Series*

Shanti S. Gupta, Department of Statistics, Purdue University, West Lafayette, Indiana 47907

Managing Editor:

Prem K. Goel, Department of Statistics, 1958 Neil Avenue, The Ohio State University, Columbus, Ohio 43210

Official Journals. The official journals of the Institute are *The Annals of Statistics*, *The Annals of Probability*, and *The Institute of Mathematical Statistics Bulletin*.

Individual and Institutional Memberships. All *individual members* receive the *Bulletin*. Annual dues for individual membership depend upon the journals selected (\$52 for both *Annals*/\$40 for one *Annals*). Dues allocations to each journal are set by Council resolution for regular members at \$6 for *The IMS Bulletin* and \$34 for one *Annals* or \$23 for each *Annals*. Subject to some restrictions, memberships are available at reduced rates for students (\$21/\$17), residents of developing countries (\$35/\$28), and retired members (\$11/\$6/\$1 for the *Bulletin* only). *Institutional memberships* are available at \$215 per year and include two copies for multiple readership of all three journals.

Individual and General Subscriptions. Subscriptions are available on a calendar year basis. *Individual subscriptions* are for the personal use of the subscriber and must be in the name of, paid directly by, and mailed to an individual. Individual subscriptions for 1985 are available to *The Annals of Statistics* (\$45), *The Annals of Probability* (\$45), and *The IMS Bulletin* (\$11).

General subscriptions are for libraries, institutions, and any multiple-readership use. General subscriptions for 1985 are available to *The Annals of Statistics* (\$75), *The Annals of Probability* (\$70), both *Annals* (\$140), and *The IMS Bulletin* (\$20). Air mail rates for overseas delivery of general subscriptions are \$40 per subscription.

Correspondence. Mail to IMS should be sent to the Business Office (membership, subscriptions, claims, copyright permissions, advertising, back issues), the Editor of the appropriate journal (submissions, editorial content), or the Managing Editor (production), and *not* to Waverly Press.

***The Annals of Probability* (ISSN 0091-1798)**, Volume 12, Number 4, November, 1984. Published in February, May, August and November by the Institute of Mathematical Statistics, 3401 Investment Blvd., #6, Hayward, California 94545. Printed at the Waverly Press, Inc., Baltimore, Maryland 21202. Second-class postage paid at Hayward, California and at additional mailing offices. **Postmaster.** Send address changes to *The Annals of Probability*, Institute of Mathematical Statistics, 3401 Investment Blvd., #6, Hayward, California 94545.

EDITORIAL POLICY

The main purpose of the *Annals of Probability* and the *Annals of Statistics* is to publish contributions to the theory of probability and statistics and to their applications. The emphasis is on importance and interest; formal novelty and mathematical correctness alone are not sufficient. Especially appropriate are authoritative expository papers and surveys of areas in vigorous development. All papers are refereed.

NOTICE

Manuscripts submitted for the *Annals of Probability* should be sent to the Editor at the following address:

Until December 31, 1984:

Harry Kesten
Department of Mathematics
Cornell University
Ithaca, New York 14853

After January 1, 1984:

Thomas M. Liggett

THE ANNALS OF PROBABILITY

INSTRUCTIONS FOR AUTHORS

Submission of Papers. Papers to be submitted for publication should be sent to the Editor of the *Annals of Probability*. (For current address, see the latest issue of the *Annals*.) Four copies should be submitted on paper that will take ink corrections. The manuscript will *not* normally be returned to the author; when expressly requested by the author, one copy of the manuscript will be returned.

Preparation of Manuscripts. Manuscripts should be typewritten, entirely double-spaced, including references, with wide margins at sides, top and bottom. All copies must be completely legible. When technical reports are submitted, all extraneous sheets and covers must be removed. Typists should check an issue of the *Annals* for style.

Submission of Reference Papers. Two copies of unpublished or not easily available papers cited in the manuscript should be submitted with the manuscript.

Title. The title should be descriptive and as concise as is feasible, i.e., it should indicate the topic of the paper as clearly as possible, but every word in it should be pertinent.

Abbreviated Title. An abbreviated title to be used as a running head is also required. This should normally not exceed 35 characters. For example, an article with the title "A Limit Theorem for Conditional Recurrent Random Walk Attracted to a Stable Law" could have the running head, "Limit Theorem for Recurrent Random Walk" or possibly "Recurrent Random Walk Attracted to a Stable Law" depending on the emphasis to be conveyed.

Affiliation. Indicate your present institutional affiliation as you would like it to appear. List your permanent mailing address after the references.

Summary. Each manuscript is required to contain a summary, clearly separated from the rest of the paper, which will be printed immediately after the title. Its main purpose is to inform the reader quickly of the nature and results of the paper; it may also be used as an aid in retrieving information. The length of a summary will clearly depend on the length and difficulty of the paper, but in general it should not exceed 150 words. Formulas should be used as sparingly as possible within the summary. The summary should not make reference to results or formulas in the body of the paper—it should be self-contained.

Footnotes. Footnotes should not be used, except as described under Title Page Footnotes below. Such information should be included within the text.

Title Page Footnotes. Included as a footnote on page 1 should be the headings:

American Mathematical Society 1980 subject classifications. Primary—; secondary—.
Key words and phrases.

The classification numbers representing the primary and secondary subjects of the article may be found with instructions for its use in the *Mathematical Reviews Annual Subject Index-1980*. The key words and phrases should describe the subject matter of the article; generally they should be taken from the body of the paper.

Acknowledgment of support. Grants and contracts should also be included in this footnote.

Identification of Symbols. Manuscripts for publication should be clearly prepared to insure that all symbols are properly identified. Distinguish between "oh" and "zero"; "ell" and "one", "epsilon" and "element of"; "summation" and "capital sigma," etc. Indicate also when special type is required (Greek, German, script, boldface, etc.); unless indicated otherwise, formula letters will be set in italics. Acronyms should be introduced sparingly. Any handwritten symbols should be clearly identified.

Figures and Tables. Figures, charts, and diagrams should be prepared in a form suitable for photographic reproduction and should be professionally drawn twice the size they are to be printed. (These need not be submitted until the paper has been accepted for publication.) The printer does not improve upon the quality of the figures submitted. Tables should be typed on separate pages with accompanying footnotes immediately below the table.

Formulas. Fractions *in the text* are preferably written with the solidus or negative exponent; thus,

$(a + b)/(c + d)$ is preferred to $\frac{a + b}{c + d}$, and $(2\pi)^{-1}$ or

$1/(2\pi)$ to $\frac{1}{2\pi}$. Also, $a^{b(c)}$ and $a_{b(c)}$ are preferred to a^{b^c}

and a_{b^c} , respectively. Complicated exponentials should be represented with the symbol exp. A fractional exponent is preferable to a radical sign.

References. References should be typed double-spaced and should follow the style:

Révész, P. (1982). Admissibility of conditional confidence procedures. *Ann. Probab.* **10** 613–622.

In textual material, the format "... Révész (1982) ..." should be used. Multiple references can be distinguished as "... Révész (1982a) ...". Abbreviations for journals should be taken from a current index issue of *Mathematical Reviews*.

Galley Proofs. The author will ordinarily receive galley proofs. Corrected galley proofs should be sent to the Managing Editor of the *Annals of Probability* (For current address, see the latest issue of the *Annals*.)
