

THE ANNALS of STATISTICS

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

Nonparametric Inference

- Periodic boxcar deconvolution and Diophantine
approximation IAIN M. JOHNSTONE AND MARC RAIMONDO 1781
- An adaptation theory for nonparametric
confidence intervals T. TONY CAI AND MARK G. LOW 1805
- Robust nonparametric inference
for the median VÍCTOR J. YOHAI AND RUBEN H. ZAMAR 1841
- Sieve empirical likelihood ratio tests for
nonparametric functions JIANQING FAN AND JIAN ZHANG 1858
- The Hough transform estimator . . . ALEXANDER GOLDENSHLUGER AND ASSAF ZEEVI 1908
- Wavelet-based estimation with multiple
sampling rates PETER HALL AND SPIRIDON PENEV 1933
- On the testability of the CAR assumption ERIC A. CATOR 1957
- On optimal spatial subsample size
for variance estimation DANIEL J. NORDMAN AND SOUMENDRA N. LAHIRI 1981

Bayesian Analysis

- New approaches to Bayesian consistency STEPHEN WALKER 2028
- On the posterior distribution of the number of
components in a finite mixture AGOSTINO NOBILE 2044

Density Estimation

- Equivalence theory for density estimation, Poisson processes and
Gaussian white noise with drift . . . LAWRENCE D. BROWN, ANDREW V. CARTER,
MARK G. LOW AND CUN-HUI ZHANG 2074
- Attributing a probability to the shape of
a probability density PETER HALL AND HONG OOI 2098
- Bump hunting with non-Gaussian kernels
PETER HALL, MICHAEL C. MINNOTTE AND CHUNMING ZHANG 2124

Experimental Design

- Optimal designs for a class of nonlinear regression models
HOLGER DETTE, VIATCHESLAV B. MELAS AND ANDREY PEPELYSHEV 2142
- Geometric isomorphism and minimum aberration for
factorial designs with quantitative factors . . SHAO-WEI CHENG AND KENNY Q. YE 2168

Inference for Diffusions

- Estimators of diffusions with randomly spaced discrete observations:
A general theory YACINE AÏT-SAHALIA AND PER A. MYKLAND 2186
- Nonparametric estimation of scalar diffusions based on
low frequency data . . EMMANUEL GOBET, MARC HOFFMANN AND MARKUS REIß 2223

Hidden Markov Models

- Asymptotic properties of the maximum likelihood estimator in autoregressive models
with Markov regime RANDAL DOUC, ÉRIC MOULINES AND TOBIAS RYDÉN 2254
- Asymptotic operating characteristics of an optimal change point
detection in hidden Markov models CHENG-DER FUH 2305

Correction

- Smooth discrimination analysis . . . ENNO MAMMEN AND ALEXANDRE B. TSYBAKOV 2340
