announce publication of Volume 3 of

**CURRENT INDEX TO STATISTICS:
APPLICATIONS, METHODS AND
THEORY**

An annual computerized index to the statistical literature

Coverage — Over 5,000 articles in “core” and “related” journals for 1977 are indexed. Author index & index by key words. Example of subject index (complete reference to journal, volume, pages, etc., is given):

Important word

Asymptotic Properties of Non-linear Least Squares Estimators • R. I. Jennrich
Interval Estimation of Non-linear Parametric Functions • Halpern, Mantel
Interval Estimation of Non-linear Parametric Functions, II • M. Halpern
On a Problem in Non-linear Prediction Theory • J. B. Robertson
Convergence in Non-linear Regression • T. Tornheim
Non-linear Regression with Minimal Assumptions • H. M. Wagner

Key word

Who should subscribe — All individuals who spend any significant fraction of their time doing statistics. Anyone who spends more than *one hour per year* looking for an article on a particular topic in statistics or redeveloping some technique that already exists in the literature will find it cost effective to have a personal copy of this index.

Editor — Brian L. Joiner, University of Wisconsin. *Assistant Editor* — Jessie M. Gwynne

Management Committee — Donald A. Gardiner, Chairman; Robert M. Elashoff, Seymour Geisser, David Hoaglin, David L. Wallace

Subscription Rates — \$9.00 for members of the two sponsoring societies
\$12.00 for other individuals
\$18.00 for organizational/library subscriptions
(Volumes 1 & 2, covering 1975 and 1976 journals, available at the same rate.)

Even if you move to a new job, you can bring our Group Life Insurance along.

Last year I got a great job offer. It meant moving up to more money, more responsibility, greater security for my family.

It also could have meant a waiting period without life insurance.

One of the biggest benefits of our supplemental Group Life Insurance is that no matter how often I change jobs, it automatically goes with me.

Group Life Insurance has many other advantages, too. For one, it can cover my entire family—including the children.

To find out what mobile Group Life Insurance could mean to your family, simply fill out and return the coupon.
