

# BAYESIAN ANALYSIS

## Articles

Inverse Bayesian Optimization: Learning Human Acquisition Functions in an Exploration vs Exploitation Search Task .....	1
..... N. Sandholtz, Y. Miyamoto, L. Bornn, and M. A. Smith	
Scalable Bayesian High-dimensional Local Dependence Learning.....	25
..... K. Lee and L. Lin	
A Bayesian Nonparametric Latent Space Approach to Modeling Evolving Communities in Dynamic Networks .....	49
..... J. Daniel Loyal and Y. Chen	
Reproducible Model Selection Using Bagged Posteriors.....	79
..... J. H. Huggins and J. W. Miller	
A Comparison of Learning Rate Selection Methods in Generalized Bayesian Inference .....	105
..... P.-S. Wu and R. Martin	
Bayesian Experimental Design Without Posterior Calculations: An Adversarial Approach .....	133
..... D. Prangle, S. Harbisher, and C. S. Gillespie	
Efficient Emulation of Computer Models Utilising Multiple Known Boundaries of Differing Dimension.....	165
..... S. E. Jackson and I. Vernon	
Bayesian Non-Parametric Ordinal Regression Under a Monotonicity Constraint .....	193
..... O. Saarela, C. Rohrbeck, and E. Arjas	
Bayesian Inference for the Weights in Logarithmic Pooling .....	223
..... L. M. Carvalho, D. A. M. Villela, F. C. Coelho, and L. S. Bastos	
On Quasi-Infinitely Divisible Random Measures.....	253
..... R. Passeggeri	
Evaluating Sensitivity to the Stick-Breaking Prior in Bayesian Nonparametrics (with Discussion),.....	287
..... R. Giordano, R. Liu, M. I. Jordan, and T. Broderick
