NEW PUBLICATIONS

BLISS, G. A. Lectures on the calculus of variations. University of Chicago Press, 1946. 9+296 pp. $5.00.

BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE. Mathematical Tables. Cambridge University Press, 1946.

> Part-volume A. Legendre polynomials. Prepared by L. J. Comrie. 42 pp. 8s 6d.
>
> Part-volume B. The Airy integral, giving tables of solutions of the differential equation $y'' = xy$. Prepared by J. C. P. Miller. 56 pp. 10s.
>
> Auxiliary tables. I. Coefficients in the modified Everett interpolation formula. 6d.
>
> Auxiliary tables. II. Table for interpolation with reduced derivatives. Coefficients for function and for first derivative. 6d.

CRAMÉR, H. Mathematical methods of statistics. Uppsala, Almqvist and Wiksells, 1945; Princeton University Press, 1946. (Princeton Mathematical Series, no. 9.) 16+575 pp. $6.00.

DAVAL, R., and GUILBAUD, G. T. Le raisonnement mathématique. Paris, University Press of France, 1945. 152 pp. 40 fr.

FLETCHER, A., MILLER, J. C. P., and ROSENHEAD, L. An index of mathematical tables. London, Scientific Computing Service; New York, McGraw-Hill, 1946. 8+451 pp. $16.00.

GUILBAUD, G. T. See DAVAL, R.

GROSREY, A. Éléments de calcul infinitésimal. Paris, Gauthier-Villars, 1945. 192 pp. 280 fr.

HACHTROUDI, M. Les espaces normaux. Université de Téhéran, 1945. 83 pp.

KERRICH, J. E. An experimental introduction to the theory of probability. Copenhagen, Munksgaard, 1946. 98 pp. 8.50 Dan. cr.

LEFSCHETZ, S. Lectures on differential equations. Princeton University Press; London, Humphrey Milford, Oxford University Press, 1946. (Annals of Mathematics Studies, no. 14.) 8+210 pp. $3.00.

MILLER, G. A. Collected works. Vol. 3. Urbana, University of Illinois Press, 1946. 499 pp.

MILLER, J. C. P. See FLETCHER, A.

ROSENHEAD, L. See FLETCHER, A.

Tables of fractional powers. Prepared by Mathematical Tables Project, National Bureau of Standards. New York, Columbia University Press, 1946. 489+30 pp. $7.50.
