Journals Published by the

American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

The subscription price is $7.00 per annual volume of six numbers.

Research Problems and Invited Addresses offered for publication should be sent to WALTER RUDIN, Department of Mathematics, University of Wisconsin, Madison, Wisconsin; Book Reviews to FELIX BROWDER, School of Mathematics, Institute for Advanced Study, Princeton, New Jersey. Research Announcements offered for publication should be sent to some member of the Council of the Society, and communicated by him to E. E. MOISE, Graduate School of Education, Harvard University, Cambridge 38, Massachusetts. All other communications to the editors should be sent to the Managing Editor, E. E. MOISE.

The members of the Council for 1963 are: H. A. Antosiewicz, P. T. Bateman, Lipman Bers, R. P. Boas, H. W. Bode, Raoul Bott, Felix Browder, S. S. Chern, P. E. Conner, C. W. Curtis, D. A. Darling, J. L. Doob, G. F. D. Duff, Eldon Dyer, William Feller, A. M. Gleason, J. W. Green, P. R. Halmos, G. A. Hedlund, M. H. Heins, L. A. Henkin, Edwin Hewitt, A. S. Householder, G. B. Huff, G. A. Hunt, Nathan Jacobson, P. D. Lax, Karel de Leeuw, R. C. Lyndon, H. P. McKean, Jr., L. Markus, W. S. Massey, A. E. Meder, Jr., E. E. Moise, Deane Montgomery, G. D. Mostow, Louis Nirenberg, R. S. Pierce, Everett Pitcher, R. S. Phillips, Alex Rosenberg, Walter Rudin, I. M. Singer, J. D. Swift, Michio Suzuki, C. B. Tompkins, W. R. Wasow, J. V. Wehausen, George Whaples, J. W. T. Youngs, Daniel Zelinsky, Leo Zippin, Antoni Zygmund.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics and is devoted principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character, for which there is normally no other outlet.

The subscription price is $11.00 per annual volume of six numbers.

Papers in algebra and number theory should be sent to ALEX ROSENBERG, Department of Mathematics, Cornell University, Ithaca, New York or GEORGE WHAPLES, Department of Mathematics, Indiana University, Bloomington, Indiana; in probability, real variables, logic, and foundations to P. R. HALMOS, Department of Mathematics, University of Michigan, Ann Arbor, Michigan; in abstract analysis to either P. R. HALMOS or ALEX ROSENBERG; in geometry and topology to ELDON DYER, Eckhart Hall, University of Chicago, Chicago 37, Illinois; in other branches of analysis, applied mathematics, and all other fields to M. H. HEINS, Department of Mathematics, University of Illinois, Urbana, Illinois or FRITZ JOHN, Courant Institute of Mathematical Sciences, 4 Washington Place, New York 3, New York. All other communications to the editors should be addressed to the Managing Editor, ALEX ROSENBERG.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer papers than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1964. The subscription price is $8.00 per volume.

Papers in analysis and applied mathematics should be sent to LIPMAN BERS, Courant Institute of Mathematical Sciences, New York University, New York 3, New York; in topology to W. S. MASSEY, Department of Mathematics, Yale University, Box 2155, Yale Station, New Haven, Connecticut; in algebra, number theory, and logic to DANIEL ZELINSKY, Department of Mathematics, Northwestern University, Evanston, Illinois; in geometry and abstract analysis to I. M. SINGER, Department of Mathematics, Massachusetts Institute of Technology, Cambridge 39, Massachusetts; in statistics and probability to H. P. MCKEAN, JR., Department of Mathematics, Massachusetts Institute of Technology, Cambridge 39, Massachusetts. All other communications to the editors should be addressed to the Managing Editor, W. S. MASSEY.

American Mathematical Society

Mathematical Reviews

This journal is devoted to abstracts and reviews of the current mathematical literature of the world. Two volumes of MATHEMATICAL REVIEWS will be published in 1964, Volume 27 and Volume 28. Each volume will consist of 6 regular issues plus an index issue. In each regular issue the abstracts and reviews are grouped under subject headings. Publication began in 1940.

Prior to 1961 it appeared in eleven single issues. Orders for complete volumes only are accepted. Volumes 1–24 are available at the following prices: Vols. 1–16 (1940–1955), $42.00 each; all other volumes $50.00.

Mathematics of Computation

A journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices and other aids to computation. In addition it publishes reviews and notes in these and related fields. Published by the Society for the National Academy of Sciences-National Research Council.

The subscription price is $8.00 per volume of 4 issues. Single copies are $2.50. *Back issues* insofar as they are available: (1943–1962) $3.00 per issue; $12.00 per volume. Write for specific information concerning availability.

THE UNDECIDABLE

Basic Papers on Undecidable Propositions, Unsolvable Problems, and Computable Functions. edited with introduction and notes, by

MARTIN DAVIS

Including 1st printing of Goedel's famous '34 Princeton lectures and of Emil Post's major, unpublished '41 paper; with a new translation of Goedel's classic '31 paper, and other basic articles by Post, Turing, Church, Kleene and Rosser.

Indexed, with bibliographies, approx. 325 pp. Clothbound. $5.98.
Pub. date: Jan. '64.
Advance orders now accepted.

Hewlett, N. Y.

MULTISTAGE INVENTORY MODELS AND TECHNIQUES

Edited by
Herbert E. Scarf, Dorothy M. Gilford and Maynard W. Shelly

This volume is the first of a series devoted to mathematical methods in logistics sponsored by the Office of Naval Research in cooperation with the Institute of Management Sciences. Four papers are included in this study, with additional expository papers submitted by the judging committee.
