

SPRINGER-VERLAG NEW YORK INC.

Ergebnisse der Mathematik und ihrer Grenzgebiete / Neue Folge

Forthcoming new English editions of "Ergebnisse der
Mathematik und ihrer Grenzgebiete"

Band 31 **Coding Theorems
of Information Theory**

By **J. Wolfowitz**, Professor of Mathematics, Cornell
University. (Reihe: Wahrscheinlichkeitstheorie und
mathematische Statistik. Besorgt von J. L. Doob)
In English. 2nd edition. X, 125 pages 8vo. 1964.
Cloth US \$6.75

Band 14 **Generators and Relations
for Discrete Groups**

By **H. S. M. Coxeter** and **W. O. J. Moser**
In English. 2nd edition. With 54 figures.
Approx. 170 pages 8vo. 1964. (Reihe: Gruppentheorie.
Besorgt von R. Baer) Cloth US \$9.20

Band 30 **Inequalities**

By **Dr. Edwin F. Beckenbach**, Professor of Mathe-
matics, University of California, Los Angeles/Calif.,
and **Dr. Richard Bellman**, Research Mathematician,
The Rand Corporation, Santa Monica/Calif.
(Reihe: Reelle Funktionen. Besorgt von P. R. Halmos)
In English. Second revised printing. With 6 figures.
XII, 198 pages 8vo. 1965. Cloth US \$ 7.50

**MATHEMATICAL PUBLICATIONS
OF THE
POLISH ACADEMY OF SCIENCES**

Published by the State Science Publishers

ACTA MATHEMATICA

One of the world's leading publications devoted to the theory of numbers; an organ of the Mathematical Institute of the Polish Academy of Sciences. Publication was started in 1935, and resumed after the war with Volume 4, Paper 1. The publication appears in volumes of 4 papers each, printed in English, French, German and Russian.

Recently published: Vol. 8, Paper 4. 121 pp. 1963. \$2.50
(Starting with Volume 10, price will be \$3.00.)

COLLOQUIUM MATHEMATICUM

Published since 1948; now an organ of the Mathematical Institute. Contains articles on various branches of mathematics and science, and a chronicle of mathematical activity in Poland. All papers are printed in English, French, German and Russian.

Recently published: Vol. II, Paper 1. 140 pp. 1963. \$3.50

FUNDAMENTA MATHEMATICA

Continuation of a pre-war publication, started in 1920. Contains original works by leading Polish and other mathematicians on mathematical fundamentals, theory of numbers, topology, real functions, abstract algebra, and mathematical logic. Printed in English, French, German and Russian. Pre-war volumes are now being reprinted by photo-offset; by 1965 all volumes will be reprinted.

Recently published: Vol. 23, Paper 2, 193 pp. 1963. \$2.50

Journals Published by the American Mathematical Society

Soviet Mathematics—Doklady

SOVIET MATHEMATICS—DOKLADY is a translation journal containing the entire pure mathematics section of the DOKLADY AKADEMIĬ NAUK SSSR, the Reports of the Academy of Sciences of the USSR. The DOKLADY for a year contains more than 500 articles, each about 4 pages long. Issued bimonthly in January, March, May, July, September, and November.

Subscriptions, \$35.00.

Single issues are \$7.00. Vols. 1, 2, 3, and 4 (1960–1963), price per volume \$40.00.

Mathematical Reviews

This journal is devoted to abstracts and reviews of the current mathematical literature of the world. Two volumes of MATHEMATICAL REVIEWS will be published in 1965, Volume 29 and Volume 30. Each volume will consist of 6 regular issues plus an index issue. In each regular issue the abstracts and reviews are grouped under subject headings. Publication began in 1940. Subscription price per volume of 7 issues is \$50.00; 2 volumes per year \$100.00.

Prior to 1961 it appeared in eleven single issues. Orders for complete volumes only are accepted. Volumes 1–24 are available at the following prices: Vols. 1–16 (1940–1955), \$42.00 each; all other volumes \$50.00.

Notices of the American Mathematical Society

This journal announces the programs of the meetings of the Society. It carries the abstracts of all contributed papers presented at the meetings of the Society and publishes news items of interest to mathematical scientists.

The subscription price is \$7.00 per annual volume of seven numbers. A single copy is \$2.00. Orders for back volumes (back issues of the last two years only are available) at \$14.00 per volume.

All communications should be addressed to the Editor, 190 Hope Street, Providence, Rhode Island 02906. News items and insertions for each issue must be in the hands of the editor on or before the deadline for the abstracts for the papers to be presented in the meetings announced in that issue. These deadlines are published regularly on the back of the title page.

Mathematics of Computation

A journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices and other aids to computation. In addition it publishes reviews and notes in these and related fields. Published by the Society for the National Academy of Sciences–National Research Council.

Prospective publications should be addressed to the Editor, Dr. Harry Polachek, Technical Director, Applied Mathematics Laboratory, David Taylor Model Basin, Washington, D. C. 20007. The author may suggest the name of an editor for review of his paper.

The subscription price is \$16.00 per volume of 4 issues. Single copies are \$2.50. Back issues insofar as they are available: (1943–1964) \$3.00 per issue; \$12.00 per volume. Write for specific information concerning availability.

Chinese Mathematics—Acta

This is a cover-to-cover translation into English of Acta Mathematica Sinica published by Academia Sinica Peking, People's Republic of China. Acta Mathematica Sinica contains current research in all fields of pure mathematics. Subscription price per volume \$20.00.

Volume 1, 1962 of the translation (corresponding to Volume 10, 1960 of the original) contained three issues. Volume 2–4 (1963–1964) contain four issues each.

Back volumes \$30.00; single issue price one third of the volume price.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

The subscription price is \$7.00 per annual volume of six numbers.

Research Problems and Invited Addresses offered for publication should be sent to WALTER RUDIN, Department of Mathematics, University of Wisconsin, Madison, Wisconsin; Book Reviews to FELIX BROWDER, Department of Mathematics, University of Chicago, Chicago, Illinois 60637. Research Announcements offered for publication should be sent to some member of the Council of the Society, and communicated by him to E. H. SPANIER, Department of Mathematics, University of California, Berkeley, California 94720. All other communications to the editors should be sent to the Managing Editor, FELIX BROWDER.

The members of the Council for 1965 are: A. A. Albert, H. A. Antosiewicz, R. F. Arens, Maurice Auslander, Lipman Bers, R. P. Boas, Felix Browder, R. C. Buck, Eugenio Calabi, A. P. Calderon, Lamberto Cesari, P. J. Cohen, P. E. Conner, C. W. Curtis, D. A. Darling, J. L. Doob, G. F. D. Duff, Eldon Dyer, J. W. Green, P. R. Halmos, O. G. Harrold, G. A. Hedlund, M. H. Heins, Edwin Hewitt, Fritz John, Mark Kac, V. L. Klee, Karel de Leeuw, M. M. Loève, G. W. Mackey, W. T. Martin, W. S. Massey, J. W. Milnor, G. D. Mostow, Louis Nirenberg, R. S. Pierce, Everett Pitcher, Alex Rosenberg, Walter Rudin, Dana Scott, Seymour Sherman, I. M. Singer, Stephen Smale, E. H. Spanier, N. E. Steenrod, Michio Suzuki, J. D. Swift, A. E. Taylor, J. V. Wehausen, John Wermer, George Whaples, Daniel Zelinsky, Leo Zippin, Antoni Zygmund.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics and is devoted principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character, for which there is normally no other outlet.

The subscription price is \$11.00 per annual volume of six numbers.

Papers in algebra and number theory should be sent to ALEX ROSENBERG, Department of Mathematics, Cornell University, Ithaca, New York or GEORGE WHAPLES, Department of Mathematics, Indiana University, Bloomington, Indiana; in probability, real variables, logic, and foundations to R. C. BUCK, Department of Mathematics, University of Wisconsin, Madison 6, Wisconsin; in abstract analysis to either R. C. BUCK or ALEX ROSENBERG; in geometry and topology to ELDON DYER, Department of Mathematics, Rice University, Houston 1, Texas; in other branches of analysis, applied mathematics, and all other fields to M. H. HEINS, Department of Mathematics, University of Illinois, Urbana, Illinois, or FRITZ JOHN, Courant Institute of Mathematical Sciences, 4 Washington Place, New York 3, New York. All other communications to the editors should be addressed to the Managing Editor, ELDON DYER.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer papers than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1965, as well as three additional volumes (one in two parts). The subscription price is \$8.00 per volume.

Papers in analysis and applied mathematics should be sent to LOUIS NIRENBERG, Courant Institute of Mathematical Sciences, New York University, New York 3, New York; in topology to W. S. MASSEY, Department of Mathematics, Yale University, Box 2155, Yale Station, New Haven, Connecticut; in algebra, number theory, and logic to DANIEL ZELINSKY, Department of Mathematics, Northwestern University, Evanston, Illinois; in geometry and abstract analysis to I. M. SINGER, Department of Mathematics, Massachusetts Institute of Technology, Cambridge 39, Massachusetts; in statistics and probability to MICHEL LOÈVE, Department of Statistics, University of California, Berkeley 4, California; in mathematical logic and foundations to DANA SCOTT, Department of Mathematics, Stanford University, Stanford, California. All other communications to the editors should be addressed to the Managing Editor, MICHEL LOÈVE.

E. H. Brown, Jr., and F. P. Peterson. The Kervaire invariant of $(8k+2)$ -manifolds	190
Council and Board of Trustees—1964	194

CONTENTS

January, 1965

Invited Addresses

- H. E. Rauch. A transcendental view of the space of algebraic Riemann surfaces. 1
- Saunders MacLane. Categorical algebra. 40
- Szolem Mandelbrojt and Laurent Schwartz. Jacques Hadamard (1865–1963). 107

Book Reviews

- R. F. Streater and A. S. Wightman. PCT, spin and statistics, and all that. Reviewed by D. Ruelle. 130
- Ulf Grenander. Probabilities on algebraic structures. Reviewed by Harry Furstenberg. 132
- J. Milnor. Morse theory. Reviewed by N. H. Kuiper. 136

Research Problems

- W. R. Utz. The equation $f'(x) = af(g(x))$ 138
- The October Meeting in Garden City. 139
- The November Meeting in Los Angeles. 140
- The November Meeting in Athens. 141
- The November Meeting in Evanston. 142

Research Announcements

- L. Carlitz. Some arithmetic properties of the Bell polynomials 143
- Robert Hermann. The second variation for variational problems in canonical form. 145
- Shôichirô Sakai. A Radon-Nikodym theorem in W^* -algebras 149
