

JOURNALS PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY

TRANSLATION JOURNALS

Soviet Mathematics–Doklady is a bimonthly translation journal containing the entire pure mathematics section of the DOKLADY AKADEMII NAUK SSSR.

Mathematics of the USSR–Izvestiya, a bimonthly journal, is a cover-to-cover translation of IZVESTIYA AKADEMII NAUK SSSR SERIYA MATEMATICHESKAYA.

Mathematics of the USSR–Sbornik is a monthly journal and is a cover-to-cover translation of MATEMATICHSKIĪ SBORNIK (NOVAYA SERIYA).

Theory of Probability and Mathematical Statistics is the cover-to-cover translation into English of TEORIYA VEROYATNOSTEĪ I MATEMATICHESKAYA STATISTIKA.

Vestnik Leningrad University (Mathematics) is the complete translation into English of the mathematics section of the VESTNIK LENINGRADSKOGO UNIVERSITETA.

Transactions of the Moscow Mathematical Society is a translation into English of TRUDY MOSKOVSKOGO MATEMATICHESKOGO OBSHCHESTVA.

Proceedings of the Steklov Institute of Mathematics is a translation of AKADEMIYA NAUK SSSR TRUDY ORDENA LENINA MATEMATICHESKOGO INSTITUTA IMENI V. A. STEKLOVA.

RESEARCH JOURNALS

Submission information for these journals is included in the May and September issues of this *Bulletin*.

Bulletin (New Series) of the American Mathematical Society is a bimonthly journal which contains Research-Expository Papers, Research Announcements and Reviews of Books on Advanced Mathematics.

Mathematics of Computation is a quarterly journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices, and other aids to computation.

Memoirs of the American Mathematical Society is a bimonthly journal constituting a series of paperback research tracts which are of the same general character as the papers published in the TRANSACTIONS.

Proceedings of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics, principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character for which there is normally no other outlet.

Transactions of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics and, in general, includes longer papers than those in the PROCEEDINGS.

OTHER JOURNALS

Abstracts of Papers Presented to the American Mathematical Society contains abstracts of invited hour addresses of papers presented in special sessions or in sessions for contributed papers and of papers presented to the Society “by title”.

Current Mathematical Publications, issued biweekly, contains a subject-classified index of papers and books being published currently in mathematics.

Mathematical Reviews is a monthly journal devoted to abstracts and review of the current mathematical literature of the world. Each volume consists of six regular issues plus an index issue. Starting in 1979 the second volume index each year is the author and subject index for the entire year. Abstracts and reviews are grouped under subject headings.

Notices of the American Mathematical Society, published eight times a year, contains programs and reports of the meetings of the Society, reports on Society business, communications to the membership, and news items and information of interest to the mathematical community.

BULLETIN (New Series) of the American Mathematical Society

EDITORS

EDITORIAL BOARD FOR RESEARCH-EXPOSITORY ARTICLES

| | |
|---------------------|--------------------|
| Hyman Bass | Irving Kaplansky |
| Felix E. Browder | Peter D. Lax |
| Chairman | John W. Milnor |
| S. S. Chern | Hugh L. Montgomery |
| Fredrick W. Gehring | Gian-Carlo Rota |

EDITORIAL BOARD FOR RESEARCH ANNOUNCEMENTS

| | |
|----------------------|----------------------|
| Spencer Bloch | Henry P. McKean, Jr. |
| Charles L. Fefferman | Richard Melrose |
| Ronald L. Graham | Calvin C. Moore |
| Melvin Hochster | Chairman |
| Robert P. Langlands | Yiannis Moschovakis |
| Richard K. Lashof | I. M. Singer |

Harold M. Stark

BOOK REVIEW EDITOR: Meyer Jerison

MANAGING EDITOR: Calvin C. Moore

MANUSCRIPT, PROOF AND COPYING INFORMATION

SUBMISSION OF MANUSCRIPT

Articles submitted for publication should be typewritten and double spaced. The *Manual for Authors*, available from the Society, should be consulted for symbols and style conventions. Authors should take the greatest possible care in preparing the original manuscript. Hand drawn symbols are satisfactory, if clearly done; directions to the printer should be included where necessary on a separate sheet.

For Research-Expository Articles and Research Announcements, the first footnote should include *subject classification numbers* representing the primary and secondary subjects of the article. The 1980 Mathematics Subject Classification can be found in the December index volumes of *Mathematical Reviews*.

COPYRIGHT TRANSFER AGREEMENT

The signing of a Copyright Transfer Agreement is a requirement of publication in the BULLETIN. A copy of the agreement is sent to the authors upon receipt of a manuscript in the Providence Office of the Society; in case of joint authors, copies are sent to the author who is designated to receive galley proof. Authors are urged to return the form immediately to prevent delays in processing and publishing of the manuscript. The 1978 edition of the *Manual for Authors* has a description of Society policy concerning copyright and a copy of the agreement.

PUBLICATION CHARGES

Research Announcements carry a page charge of \$40.00 per page to help defray the cost of publication. This amount is charged to the institution or to a contract supporting the research reported in the published paper. The publication charge policy of the United States Federal Council for Science and Technology (FCST) is reported on page 112 of the February, 1975 issue of the NOTICES of the American Mathematical Society. In no case is the author personally responsible for paying the page charge, nor is acceptance of the author's paper for publication dependent upon payment of the page charge.

REPRINTS AND ADDRESS CHANGES

Any inquiries concerning a paper which has been accepted for publication, including information regarding reprints or changes of address for mailing proof, should be sent directly to the Editorial Department, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

GALLEY PROOF

When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate which of them should receive galley proof in the event that the manuscript is accepted for publication.

COPYING AND REPRINTING

Individual readers of this publication, and nonprofit libraries acting for them are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (For details write Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970.)

Research — Expository Papers

Fixed point theory and nonlinear problems by *Felix E. Browder* 1
“La Croix des mathématiciens”: The Euclidean theory of irrational lines by
Wilbur Knorr..... 41

Research Announcements

Some results in harmonic analysis in \mathbb{R}^n , for $n \rightarrow \infty$ by *E. M. Stein*..... 71
The Sullivan conjecture by *Haynes Miller*..... 75
Complementing maps, continuation and global bifurcation by *P. M. Fitzpatrick,*
I. Massabò and J. Pejsachowicz..... 79

Book Reviews

Gauge theory and variational principles by *David D. Bleecker*—Reviewed by *M. E. Mayer* 83
Lectures on Riemann surfaces by *Otto Forster*; **Riemann surfaces** by *Hershel M. Farkas and Irwin Kra*—Reviewed by *Albert Marden*..... 92
Linear orderings by *Joseph G. Rosenstein*—Reviewed by *A. M. W. Glass* 96
Hankel operators on Hilbert space by *S. C. Power*—Reviewed by *Douglas N. Clark* 98
Basic concepts of enriched category theory by *G. M. Kelly*—Reviewed by *John W. Gray* 102
The evolution of dynamics, vibration theory from 1687 to 1742 by *John T. Cannon and Sigalia Dostrovsky*—Reviewed by *Craig Fraser* 107
The method of iterated tangents with applications in local Riemannian geometry by *Enrico J. White*—Reviewed by *Howard Jacobowitz*..... 111
Theory of group representations by *M. A. Naimark and A. I. Štern*—Reviewed by *Jonathan Rosenberg* 115
Rings that are nearly associative by *K. A. Zhevlakov, A. M. Slin’ko, I. P. Shestakov and A. I. Shirshov*—Reviewed by *J. Marshall Osborn*..... 121
