

Contents

F. OUIMET

Maxima of branching random walks with piecewise constant variance 679

J. LEÃO, V. LEIVA, H. SAULO and V. TOMAZELLA

A survival model with Birnbaum–Saunders frailty for uncensored and censored cancer data 707

Y. GIMENEZ and G. GIUSSANI

Searching for the core variables in principal components analysis 730

L. DIGIAMPIETRI, L. RÊGO, F. COSTA DE SOUZA, R. OSPINA and J. MENA-CHALCO

Brazilian network of PhDs working with probability and statistics 755

A. HINOJOSA

Exit time for a reaction diffusion model: Case of a one well potential 783

O. KHARAZMI and M. ASADI

On the time-dependent Fisher information of a density function 795

P. BERTI, L. PRATELLI and P. RIGO

Asymptotic predictive inference with exchangeable data 815

B. L. S. PRAKASA RAO

Wavelet estimation for derivative of a density in the presence of additive noise 834

J. ZHANG, B. HE, T. LU and S. WEN

Dimension reduction based on conditional multiple index density function ... 851

N. KOLEV and J. PINTO

A weak version of bivariate lack of memory property 873
