

Introducing the 1st multidisciplinary guide to review articles

INDEX TO SCIENTIFIC REVIEWS™

Now you can easily find review articles on any subject in science. Each year the *Index to Scientific Reviews (ISR™)* will index over 16,000 reviews selected from more than 2,700 of the world's most important journals.

Broad Coverage

Over 100 disciplines in every area of science are covered:

Agricultural, Biological & Environmental Sciences
Engineering, Technology & Applied Sciences
Medical & Life Sciences
Physical & Chemical Sciences
Social & Behavioral Sciences

So you won't have to go through separate references to locate review articles for subjects in any of these areas. With one index—the *ISR*—you can cross disciplinary lines and retrieve these key articles no matter where they were published in the literature. The *ISR* will even cover the literature published in quarterly and annual "review" publications (e.g., *Annual Review of Genetics*).

Effectively Indexed

The *Index to Scientific Reviews* makes it

easy to find the review articles you need. Search by authors, title words and phrases, and organizations. Or use the *ISR*'s citation index—it lets you start a search with previously published material relevant to a subject and find more recent articles through citation relationships.

Highly Current

The *ISR* indexes the review literature on a calendar year basis. A soft-bound semi-annual issue (covering January to June) will be available each September, and a hard-bound annual cumulation will appear the following April. So you can find new articles while they're still new.

What's It To You?

The *ISR* is a quick and easy way to find: 1) summaries of knowledge in fields unfamiliar to you, 2) those key articles you need to start a really thorough literature search, 3) the most recent review articles on any subject in science.

For More Information . . .

The first *ISR* annual cumulation (covering the 1974 literature) will soon be out, so get the full story on the *Index to Scientific Reviews* now. Just fill in the coupon, and mail it today.
