

JOURNAL OF INTEGRAL
EQUATIONS AND APPLICATIONS

Volume 22

SUMMER 2010

Number 2

CONTENTS

INTRODUCTION: DEDICATION TO CHARLES W. GROETSCH
By KENDALL ATKINSON AND PAUL MARTIN 165

The determination of boundary coefficients from
far field measurements
By FIORALBA CAKONI, DAVID COLTON AND PETER MONK. 167

Electrical impedance tomography with point electrodes
By FABRICE DELBARY AND RAINER KRESS 193

Regularization of ill-posed linear equations by the non-
stationary augmented Lagrangian method
By KLAUS FRICK AND OTMAR SCHERZER 217

The regularizing Levenberg-Marquardt scheme is of
optimal order
By MARTIN HANKE 259

Error bounds for spectral enhancement which are based on
variable Hilbert scale inequalities
By MARKUS HEGLAND 285

A convergence analysis of the midpoint rule for first kind
Volterra integral equations with noisy data
By B. KALTENBACHER 313

Modified Tikhonov regularization for nonlinear ill-posed problems
in Banach spaces
By ANDREAS NEUBAUER 341
